Anthropology and Global Counterinsurgency Jun 19 2021 Global events of the early twenty-first century have placed new stress on the relationship among anthropology, governance, and war. Facing prolonged insurgency, segments of the U.S. military have taken a new interest in anthropology, prompting intense ethical and scholarly debate. Inspired by these issues, the essays in *Anthropology and Global Counterinsurgency* consider how anthropologists can, should, and do respond to military overtures, and they articulate anthropological perspectives on global war and power relations. This book investigates the shifting boundaries between military and civil state violence; perceptions and effects of American power around the globe; the history of counterinsurgency doctrine and practice; and debate over culture, knowledge, and conscience in counterinsurgency. These wide-ranging essays shed new light on the fraught world of Pax Americana and on the ethical and political dilemmas faced by anthropologists and military personnel alike when attempting to understand and intervene in our world.

All Made of Tunes Jul 21 2021 Charles Ives is famous for using borrowed material in his music. Almost two hundred individual works or movements, spanning his entire career and representing more than a third of his output, incorporate music by other composers or from his own previous work. In this book, the eminent Ives scholar J. Peter Burkholder identifies the different kinds of "quotations" in Ives's music, explores the complex musical, aesthetic, and psychological motivations behind the borrowings, and shows the purpose,

techniques, and effects that characterize each one. Burkholder catalogues fourteen distinct ways that Ives borrowed, ranging from direct quotation to paraphrase, variation, collage, modeling, and stylistic allusion. Arguing that these borrowing procedures were compositional strategies, he provides a new perspective on Ives's process of composition. In addition, by tracing the development of Ives's borrowing practices through his career, he contributes to an understanding of the composer's stylistic evolution. And by showing how much of Ives's music uses borrowing procedures that are common to many composers, he reveals that Ives is not as far removed from the classic-romantic tradition as has been thought. Finally, Burkholder's comprehensive treatment of Ives's borrowing techniques offers a new perspective on the entire field of musical borrowing.

Music, Authorship, and the Book in the First Century of Print Aug 10 2020 What does it mean to

author a piece of music? What transforms the performance scripts written down by musicians into authored books? In this fascinating cultural history of Western music's adaptation to print, Kate van Orden looks at how musical authorship first developed through the medium of printing. When music printing began in the sixteenth century, publication did not always involve the composer: printers used the names of famous composers to market books that might include little or none of their music. Publishing sacred music could be career-building for a composer, while some types of popular song proved too light to support a reputation in print, no matter how quickly they sold. Van Orden addresses the complexities that arose for music and musicians in the burgeoning cultures of print, concluding that authoring books of polyphony gained only uneven cultural traction across a century in which composers were still first and foremost performers.

The Omnivore's Dilemma Oct 31 2019 "Outstanding . . . a wide-ranging invitation to think through the moral ramifications of our eating habits." —The New Yorker One of the New York Times Book Review's Ten Best Books of the Year and Winner of the James Beard Award Author of *This is Your Mind on Plants*, *How to Change Your Mind* and the #1 New York Times Bestseller *In Defense of Food* and *Food Rules* What should we have for dinner? Ten years ago, Michael Pollan confronted us with this seemingly simple question and, with *The Omnivore's Dilemma*, his brilliant and eye-opening exploration of our food choices, demonstrated that how we answer it today may determine not only our health but our survival as a species. In the years since, Pollan's revolutionary examination has changed the way Americans think about food. Bringing wide attention to the little-known but vitally important dimensions of food and agriculture in America, Pollan launched a national conversation about what we eat and the profound consequences that even the simplest everyday food choices have on both ourselves and the natural world. Ten years later, *The Omnivore's Dilemma* continues to transform the way Americans think about the politics, perils, and pleasures of eating.

A Manual for Writers of Research Papers, Theses, and Dissertations, Seventh Edition Mar 17 2021 Dewey. Bellow. Strauss. Friedman. The University of Chicago has been the home of some of the most important thinkers of the modern age. But perhaps no name has been spoken with more respect than Turabian. The dissertation secretary at Chicago for decades, Kate Turabian literally wrote the book on the successful completion and submission of the student paper. Her *Manual for Writers of Research Papers,*

Theses, and Dissertations, created from her years of experience with research projects across all fields, has sold more than seven million copies since it was first published in 1937. Now, with this seventh edition, Turabian's *Manual* has undergone its most extensive revision, ensuring that it will remain the most valuable handbook for writers at every level—from first-year undergraduates, to dissertation writers apprehensively submitting final manuscripts, to senior scholars who may be old hands at research and writing but less familiar with new media citation styles. Gregory G. Colomb, Joseph M. Williams, and the late Wayne C. Booth—the gifted team behind *The Craft of Research*—and the University of Chicago Press Editorial Staff combined their wide-ranging expertise to remake this classic resource. They preserve Turabian's clear and practical advice while fully embracing the new modes of research, writing, and source citation brought about by the age of the Internet. Booth, Colomb, and Williams significantly expand the scope of previous editions by creating a guide, generous in length and tone, to the art of research and writing. Growing out of the authors' best-selling *Craft of Research*, this new section provides students with an overview of every step of the research and writing process, from formulating the right questions to reading critically to building arguments and revising drafts. This leads naturally to the second part of the *Manual for Writers*, which offers an authoritative overview of citation practices in scholarly writing, as well as detailed information on the two main citation styles ("notes-bibliography" and "author-date"). This section has been fully revised to reflect the recommendations of the fifteenth edition of *The Chicago Manual of Style* and to present an expanded array of source types and updated examples, including guidance on citing electronic sources. The final section of the book treats issues of style—the details that go into making a strong paper. Here writers will find advice on a wide range of topics, including punctuation, table formatting, and use of quotations. The appendix draws together everything writers need to know about formatting research papers, theses, and dissertations and preparing them for submission. This material has been thoroughly vetted by dissertation officials at colleges and universities across the country. This seventh edition of *Turabian's Manual for Writers of Research Papers, Theses, and Dissertations* is a classic reference revised for a new age. It is tailored to a new generation of writers using tools its original author could not have imagined—while retaining the clarity and authority that generations of scholars have come to associate with the name Turabian.

A Manual for Writers of Research Papers, Theses, and Dissertations, Eighth Edition Jan 27 2022 A little more than seventy-five years ago, Kate L. Turabian drafted a set of guidelines to help students understand how to write, cite, and formally submit research writing. Seven editions and more than nine million copies later, the name Turabian has become synonymous with best practices in research writing and style. Her *Manual for Writers* continues to be the gold standard for generations of college and graduate students in virtually all academic disciplines. Now in its eighth edition, *A Manual for Writers of Research Papers, Theses, and Dissertations* has been fully revised to meet the needs of today's writers and researchers. The *Manual* retains its familiar three-part structure, beginning with an overview of the steps in the research and writing process, including formulating questions, reading critically, building arguments, and revising drafts. Part II provides an overview of citation practices with detailed information on the two main scholarly citation styles (notes-bibliography and author-date), an array of source types with contemporary examples, and detailed guidance on citing online resources. The final section treats all matters of editorial style, with advice on punctuation, capitalization, spelling, abbreviations, table formatting, and the use of quotations. Style and citation recommendations have been revised throughout to reflect the sixteenth edition of *The Chicago Manual of Style*. With an appendix on paper format and submission that has been vetted by dissertation officials from across the country and a bibliography with the most up-to-date listing of critical resources available, *A Manual for Writers* remains the essential resource for students and their teachers.

The Chicago Guide to Fact-Checking Aug 22 2021 "A column by Glenn Garvin on Dec. 20 stated that the National Science Foundation 'funded a study on Jell-O wrestling at the South Pole.' That is incorrect. The event took place during off-duty hours without NSF permission and did not involve taxpayer funds." Corrections such as this one from the Miami Herald have become a familiar sight for readers, especially as news cycles demand faster and faster publication. While some factual errors can be humorous, they nonetheless erode the credibility of the writer and the organization. And the pressure for accuracy and accountability is increasing at the same time as in-house resources for fact-checking are dwindling. Anyone who needs or wants to learn how to verify names, numbers, quotations, and facts is largely on their own. Enter The Chicago Guide to Fact-Checking, an accessible, one-stop guide to the why, what, and how of contemporary fact-checking. Brooke Borel, an experienced fact-checker, draws on the expertise of more than 200 writers, editors, and fellow checkers representing the New Yorker, Popular Science, This American Life, Vogue, and many other outlets. She covers best practices for fact-checking in a variety of media—from magazine articles, both print and online, to books and documentaries—and from the perspective of both in-house and freelance checkers. She also offers advice on navigating relationships with writers, editors, and sources; considers the realities of fact-checking on a budget and checking one's own work; and reflects on the place of fact-checking in today's media landscape. "If journalism is a cornerstone of democracy, then fact-checking is its building inspector," Borel writes. The Chicago Guide to Fact-Checking is the practical—and thoroughly vetted—guide that writers, editors, and publishers need to maintain their credibility and solidify their readers' trust.

In Other Words Apr 05 2020 National Best Seller From the best-selling author and Pulitzer Prize winner, a powerful nonfiction debut—an "honest, engaging, and very moving account of a writer searching for herself in words." —Kirkus Reviews (starred) *In Other Words* is a revelation. It is at heart a love story—of a long and sometimes difficult courtship, and a passion that verges on obsession: that of a writer for another language. For Jhumpa Lahiri, that love was for Italian, which first captivated and capsized her during a trip to Florence after college. Although Lahiri studied Italian for many years afterward, true mastery always eluded her. Seeking full immersion, she decides to move to Rome with her family, for "a trial by fire, a sort of baptism" into a new language and world. There, she begins to read, and to write—initially in her journal—solely in Italian. *In Other Words*, an autobiographical work written in Italian, investigates the process of learning to express oneself in another language, and describes the journey of a writer seeking a new voice. Presented in a dual-language format, this is a wholly original book about exile, linguistic and otherwise, written with an intensity and clarity not seen since Vladimir Nabokov: a startling act of self-reflection and a provocative exploration of belonging and reinvention.

Swing Time Jan 15 2021 "Smith's thrilling cultural insights never overshadow the wholeness of her characters, who are so keenly observed that one feels witness to their lives." —O, The Oprah Magazine "A sweeping meditation on art, race, and identity that may be [Smith's] most ambitious work yet." —Esquire A New York Times bestseller • Finalist for the National Book Critics Circle Award for Fiction • Longlisted for the Man Booker Prize An ambitious, exuberant new novel moving from North West London to West Africa, from the multi-award-winning author of *White Teeth* and *On Beauty*. Two brown girls dream of being dancers—but only one, Tracey, has talent. The other has ideas: about rhythm and time, about black bodies and black music, what constitutes a tribe, or makes a person truly free. It's a close but complicated childhood friendship that ends abruptly in their early twenties, never to be revisited, but never quite

forgotten, either. Tracey makes it to the chorus line but struggles with adult life, while her friend leaves the old neighborhood behind, traveling the world as an assistant to a famous singer, Aimee, observing close up how the one percent live. But when Aimee develops grand philanthropic ambitions, the story moves from London to West Africa, where diaspora tourists travel back in time to find their roots, young men risk their lives to escape into a different future, the women dance just like Tracey—the same twists, the same shakes—and the origins of a profound inequality are not a matter of distant history, but a present dance to the music of time. Zadie Smith's newest book, *Grand Union*, published in 2019.
