ECO-COMPASS Jan 19 2022 Today, mainly man-made materials, such as carbon and glass fibers, are used to produce composite parts in aviation. Renewable materials, such as natural fibers or bio-sourced resin systems, have not yet found their way into aviation. The project ECO-COMPASS aims to evaluate the potential applications of ecologically improved composite materials in the aviation sector in an international collaboration of Chinese and European partners. Natural fibers such as flax and ramie will be used for different types of reinforcements and sandwich cores. Furthermore, bio-based epoxy resins to substitute bisphenol-A based epoxy resins in secondary structures are under investigation. Adapted material protection technologies to reduce environmental influence and to improve fire resistance are needed to fulfil the demanding safety requirements in aviation. Modelling and simulation of chosen eco-composites aims for an optimized use of materials while a Life Cycle Assessment aims to prove the ecological advantages compared to synthetic state-of-the-art materials. This Special Issue provides selected papers from the project consortium partners.

Teaching Epidemiology Mar 09 2021 Teaching epidemiology requires skill and knowledge, combined with a clear teaching strategy and good pedagogic skills. The general advice is simple: if you are not an expert on a topic, try to enrich your background knowledge before you start

teaching. Teaching Epidemiology, third edition helps you to do this, and by providing the world-expert teacher's advice on how best to structure teaching gives a unique insight in to what has worked in their hands. The book will help you plan your own tailored teaching program. The book is a guide to new teachers in the field at two levels; those teaching basic courses for undergraduates, and those teaching more advanced courses for students at postgraduate level. Each chapter provides key concepts and a list of key references. Subject specific methodology and disease specific issues (from cancer to genetic epidemiology) are dealt with in details. There is also a focused chapter on the principles and practice of computer-assisted learning.

Chemistry for Degree Students B.Sc. Semester - III (As per CBCS) Oct 24 2019 This textbook has been designed to meet the needs of B.Sc. Third Semester students of Chemistry as per the UGC Choice Based Credit System (CBCS). With its traditional approach to the subject, this textbook lucidly explains principles of chemistry. Important topics such as solutions, phase equilibrium, conductance, electrochemistry, carboxylic acids, amines, diazonium salts, amino acids, peptides, proteins and carbohydrates are aptly discussed to give an overview of physical and organic chemistry. Laboratory work has also been included to help students achieve solid conceptual understanding and learn experimental procedures.

Rise & Shine – An Integrated Semester Course for Class 3 (Semester 2) Apr 22 2022 Rise and Shine - An Integrated Semester Course for Classes 1 to 5 has been designed and formulated in accordance with the guidelines of the latest National Curriculum Framework (NCF). It is a set of ten books, two for each class and one per semester. Each book includes subjects such as English, Mathematics, EVS/Science, Social Studies and General Knowledge. The key feature of the course is to make learning a joyful experience. Each book closely interweaves concepts to lay a strong foundation at the primary level. The course focuses on interactive approach to make the children active participants in the process of learning. Some of the key features of the series are : □ Based on the curriculum guidelines given by the latest National Curriculum Framework. □ Graded and matched to the number of class hours planned by the schools. □ Key concepts in each subject linked with interesting explanations; visual aids such as illustrations, photographs, diagrams, maps and tables; activities, games and real-life examples. □ Carefully graded and comprehensive exercises for true evaluation. □ Online support for © Animated lessons and interactive exercises for better understanding of the concepts learnt in the textbook. © Assignments and E-book (For Teacher's only) □ Teachers Resource Book to facilitate teaching.
