Making a Killing Apr 27 2022 A dramatic and compelling journey into the dark heart of globalization. What happens when multinational corporations decide that the use of armed force is just business by other means? In Making a Killing, Madelaine Drohan looks at the shocking number of companies that have linked up with mercenaries, warlords, armies and private militias in order to make a profit. In a world where multinationals often rival national governments in size and clout, the implications of such partnerships are ominous. What leads respectable corporations down the path to violence? Drohan answers this question by examining the actions of several companies operating in Africa, such as Ranger Oil West Africa, which used the mercenary group Executive Outcomes to take on rebels in Angola's long-running civil war; and Talisman Energy, whose security was provided by Sudanese army units conducting a scorched-earth policy in the oil fields. Drohan traces the modern roots of corporate armed force, beginning with Cecil Rhodes' British South Africa Company, which at the turn of the century built its own army. Also included is the stranger-than-fiction tale of ex-MI5 spymaster Sir Percy Sillitoe, who was hired by the De Beers diamond king to prevent the Soviet Union from acquiring smuggled diamonds in order to develop the hydrogen bomb. These accounts read like adventure stories in the tradition of Rudyard Kipling and Ian Fleming, but they are essential reading for anyone interested in the effects of unfettered multinational influence. Making a Killing provides a road map for corporations, policy makers and investors struggling to come to terms with their roles in today's increasingly globalized world.

Rebel Queen Nov 10 2020 From the internationally bestselling author of Nefertiti and Cleopatra's Daughter comes the breathtaking story of Queen Lakshmi—India's Joan of Arc—who against all odds defied the mighty British invasion to defend her beloved kingdom. When the British Empire sets its sights on India in the mid-nineteenth century, it expects a quick and easy conquest. India is fractured and divided into kingdoms, each independent and wary of one another, seemingly no match for the might of the English. But when they arrive in the Kingdom of Jhansi, the British army is met with a surprising challenge. Instead of surrendering, Queen Lakshmi raises two armies—one male and one female—and rides into battle, determined to protect her country and her people. Although her soldiers may not appear at first to be formidable against superior British weaponry

and training, Lakshmi refuses to back down from the empire determined to take away the land she loves. Told from the unexpected perspective of Sita—Queen Lakshmi's most favored companion and most trusted soldier in the all-female army—Rebel Queen shines a light on a time and place rarely explored in historical fiction. In the tradition of her bestselling novel, *Nefertiti*, and through her strong, independent heroines fighting to make their way in a male dominated world, Michelle Moran brings nineteenth-century India to rich, vibrant life.

**Nine Men In Gray** Jul 07 2020 In this volume of biographical essays, all vividly written, extensively researched, Charles L. Dufour recounts the lives of nine Confederate officers, who served their cause with dedication, skill and bravery. "Porter Alexander is not a household name today, but he should be remembered as one of Robert E. Lee's most valuable officers. Bold and imaginative, Alexander was an artilleryman whose service was requested by every Confederate army commander. He and eight other "men in gray" come to life in vivid sketches by Charles L. Dufour. Singled out are Dick Taylor, the handsome son of former president Zachary Taylor who led the Louisiana Brigade; Turner Ashby, an expert horseman whose death in battle typified the doomed gallantry of the Rebels; Pat Cleburne of the Army of Tennessee, who was called "the Stonewall of the West"; "Savez" Read, a navy man who terrorized the Atlantic seaboard in a one-gun sailing vessel; Willie Pegram, a shy Virginian who was a bold cannoner; Lucius B. Northrop, whose abrasive personality complicated his task of feeding the army; William Mahone, whose ferocious fighting spirit belied his bantam size; and Henry Hotze, who served brilliantly as a Confederate agent and propagandist."-Print ed.

**Emma's War** Jul 27 2019 Emma McCune's passion for Africa, her unstinting commitment to the children of Sudan, and her youthful beauty and glamour set her apart from other relief workers from the moment she arrived in southern Sudan. But no one was prepared for her decision to marry a local warlord—a man who seemed to embody everything she was working against—and to throw herself into his violent quest to take over southern Sudan's rebel movement. With precision and insight, Deborah Scroggins—who met McCune in Sudan—charts the process by which McCune's romantic delusions led to her descent into the hell of Africa's longest-running civil war. *Emma's War* is at once a disturbing love story and an up-close look at Sudan: a world where international aid fuels armies as well as the starving population, and where the northern-based Islamic government—backed by Osama bin Laden—is locked in a war with the Christian and pagan south over religion, oil, and slaves. A timely, revelatory account of the nature of relief work, of the men and women who choose to carry it out, and of one woman's sacrifice to its ideals.

**Finding Rowland's Hut** Sep 28 2019 ROWLAND'S HUT is a metaphor for belonging, acceptance, togetherness, safety, rescue, security, protection, significance, sanctuary & love. "A refuge for the weak, a shelter for the needy in distress" ""To give sanctuary is to bring endangered people into a place of shelter & protection"" ""To be sanctified is to be brought under the protection of God"" ""Deserts of the heart do exist. Perhaps there are fewer of them than we think. Isn't the Holy Spirit The Comforter in each one?"" (Brother Roger) Through the act of writing, I enter into an aspect of my Rowland's Hut by being productive, bringing all fragmented thoughts together to form a wholeness in purpose and expression. Within its walls, I am safe to examine this expression, allowing it to help heal my inner world, and to project my findings to the world outside. I hope that they will resonate in others, acting as an encouragement and a validation as to who we are before Man, but more importantly, before the God who loves us.

[Confederate Citadel](#) Nov 22 2021 Richmond, Virginia: pride of the founding fathers, doomed capital of the Confederate States of America. Unlike other Southern cities, Richmond boasted a vibrant, urban industrial complex capable of producing crucial ammunition and military supplies. Despite its northern position, Richmond became the Confederacy's beating heart—its capital, second-largest city, and impenetrable citadel. As long as the city endured, the Confederacy remained a well-supplied and formidable force. But when Ulysses S. Grant broke its defenses in 1865, the Confederates fled, burned Richmond to the ground, and surrendered within the week. [Confederate Citadel: Richmond and Its People at War](#) offers a detailed portrait of life's daily hardships in the rebel capital during the Civil War. Here, barricaded against a siege, staunch Unionists became a dangerous fifth column, refugees flooded the streets, and women organized a bread riot in the city. Drawing on personal correspondence, private diaries, and newspapers, author Mary A. DeCredico spotlights the human elements of Richmond's economic rise and fall, uncovering its significance as the South's industrial powerhouse throughout the Civil War.

[Dexys Midnight Runners](#) Jun 29 2022 Dexys Midnight Runners were one of the most misunderstood and overlooked groups of the 1980s. At the centre of it all, their front man and originator, Kevin Rowland, had a reputation for maintaining control and domination over Dexys at all costs. In the first comprehensive history of the band, author, Richard White, has conducted in-depth interviews with former members on the experience of being a Midnight Runner. Shedding light on the Dexys legend, including the fractious period of writing and recording the classic *Come on Eileen*, one of the biggest selling singles in UK history and its parent album *Too Rye Ay*. While celebrating their achievements on record and on stage, this book also uncovers aspects of Rowland's working methods in the studio and the latest Dexys re-invention, championed on a triumphant tour in 2003.

[Apartheid Guns and Money](#) Jul 31 2022 In its last decades, the apartheid regime was confronted with an existential threat. While internal resistance to the last whites-only government grew, mandatory international sanctions prohibited sales of strategic goods and arms to South Africa. To counter this, a global covert network of nearly fifty countries was built. In complete secrecy, allies in corporations, banks, governments and intelligence agencies across the world helped illegally supply guns and move cash in one of history's biggest money laundering schemes. Whistleblowers were assassinated and ordinary people suffered. Weaving together archival material, interviews and newly declassified documents, [Apartheid Guns and Money](#) exposes some of the darkest secrets of apartheid's economic crimes, their murderous consequences, and those who profited: heads of state, arms dealers, aristocrats, bankers, spies, journalists and secret lobbyists. These revelations, and the difficult questions they pose, will both allow and force the new South Africa to confront its past.

[Lynn Margulis](#) Feb 11 2021 Tireless, controversial, and hugely inspirational to those who knew her or encountered her work, Lynn Margulis was a scientist whose intellectual energy and interests knew no bounds. Best known for her work on the origins of eukaryotic cells, the Gaia hypothesis, and symbiogenesis as a driving force in evolution, her work has forever changed the way we understand life on Earth. When Margulis passed away in 2011, she left behind a groundbreaking scientific legacy that spanned decades. In this collection, Dorion Sagan, Margulis's son and longtime collaborator, gathers together the voices of friends and colleagues to remark

on her life and legacy, in essays that cover her early collaboration with James Lovelock, her fearless face-off with Richard Dawkins during the so-called "Battle of Balliol" at Oxford, the intrepid application of her scientific mind to the insistence that 9/11 was a false-flag operation, her affinity for Emily Dickinson, and more. Margulis was elected to the National Academy of Sciences in 1983, received the prestigious National Medal of Science in 1999, and her papers are permanently archived at the Library of Congress. Less than a month before her untimely death, Margulis was named one of the twenty most influential scientists alive - one of only two women on this list, which include such scientists as Stephen Hawking, James Watson, and Jane Goodall.

Embattled Rebel Feb 23 2022 History has not been kind to Jefferson Davis. His cause went down in disastrous defeat and left the South impoverished for generations. If that cause had succeeded, it would have torn the United States in two and preserved the institution of slavery. Many Americans in Davis's own time and in later generations considered him an incompetent leader, if not a traitor. Not so, argues James M. McPherson. In *Embattled Rebel*, McPherson shows us that Davis might have been on the wrong side of history, but it is too easy to diminish him because of his cause's failure. In order to understand the Civil War and its outcome, it is essential to give Davis his due as a military leader and as the president of an aspiring Confederate nation. Davis did not make it easy on himself. His subordinates and enemies alike considered him difficult, egotistical, and cold. He was gravely ill throughout much of the war, often working from home and even from his sickbed. Nonetheless, McPherson argues, Davis shaped and articulated the principal policy of the Confederacy with clarity and force: the quest for independent nationhood. Although he had not been a fire-breathing secessionist, once he committed himself to a Confederate nation he never deviated from this goal. In a sense, Davis was the last Confederate left standing in 1865. As president of the Confederacy, Davis devoted most of his waking hours to military strategy and operations, along with Commander Robert E. Lee, and delegated the economic and diplomatic functions of strategy to his subordinates. Davis was present on several battlefields with Lee and even took part in some tactical planning; indeed, their close relationship stands as one of the great military-civilian partnerships in history. Most critical appraisals of Davis emphasize his choices in and management of generals rather than his strategies, but no other chief executive in American history exercised such tenacious hands-on influence in the shaping of military strategy. And while he was imprisoned for two years after the Confederacy's surrender awaiting a trial for treason that never came, and lived for another twenty-four years, he never once recanted the cause for which he had fought and lost.--Publisher.

Retreat from Gettysburg Sep 08 2020 In a groundbreaking, comprehensive history of the Army of Northern Virginia's retreat from Gettysburg in July 1863, Kent Masterson Brown draws on previously untapped sources to chronicle the massive effort of General Robert E. Lee and his command as they sought to move people, equipment, and scavenged supplies through hostile territory and plan the army's next moves. Brown reveals that even though the battle of Gettysburg was a defeat for the Army of Northern Virginia, Lee's successful retreat maintained the balance of power in the eastern theater and left his army with enough forage, stores, and fresh meat to ensure its continued existence as an effective force.

Ersatz in the Confederacy Dec 12 2020 First published by the University of South Carolina in 1952, *Ersatz in the Confederacy* remains the definitive study of the South's desperate struggle to overcome critical shortages of food, medicine, clothing, household goods, farming supplies, and tools during the Civil War. Mary Elizabeth Massey's seminal work carefully documents the ingenuity of the Confederates as they coped with shortages of manufactured goods and essential commodities—including grain, coffee, sugar, and butter—that previously had been imported from the northern states or from England. Creative Southerners substituted sawdust for soap, pigs' tails and ears for Christmas tree ornaments, leaves for mattress stuffing, okra seeds for coffee beans, and gourds for cups. Women made clothing from scraps of material, blankets from carpets, shoes from leather saddles and furniture, and battle flags from wedding dresses. Despite the Confederates' penchant for "making do" and "doing without," Massey's research reveals the devastating impact of war's shortages on the South's civilian population. Overly optimistic that they could easily transform a rural economy into a self-sufficient manufacturing power, Southerners suffered from both disappointment and hardship as it became clear that their expectations were unrealistic. *Ersatz in the Confederacy's* lasting significance lies in Massey's clearly documented conclusion that despite the resourcefulness of the Southern people, the Confederate cause was lost not at Gettysburg nor in any other military engagement but much earlier and more decisively in the homefront battle against scarcity and deprivation.

Brody Aug 08 2020 'The most unpredictable and charismatic grappler of all time' The brute that made brawling an art before the term "hardcore" was coined' The confrontational businessman who fought for every penny he felt he deserved' "Bruiser" Brody had no peers when it came to blood and guts, controversy and independence. Most wrestling promoters portrayed their top talent as exactly that kind of free-spirited, take-no-guff personality. They didn't mean it, though ' which explains why so few would admit to respecting Brody even as they featured him time and again. So why did they give him work' Simple. "Bruiser" Brody delivered the goods in the ring and at the box office. In the 1970s and early 80s, Brody was one of the few performers, along with Hulk Hogan and Ric Flair, to be recognized as a national star. With his fiery personality, Brody also conquered the international market.

Nearly two decades after his murder in Puerto Rico, Brody: The Triumph and Tragedy of Wrestling's Rebel delivers a complete portrait of Brody's remarkable life. Co-authors Barbara Goodish, Brody's widow, and Larry Matysik, a close friend, offer a first-time opportunity to truly understand one of the sport's most complex and controversial human beings. Goodish's account of her husband's horrific murder and its aftermath is both heartbreaking and compelling, while Matysik's insider knowledge of the business puts Brody's place in wrestling history into perspective. With a foreword by WWE announcer Jim Ross, Brody offers readers the unvarnished truth about one of the greatest wrestling legends of all time.

Davis and Lee at War Apr 15 2021 In the critically acclaimed Jefferson Davis and His Generals Steven Woodworth showed how the failures of Davis and his military leaders in the West paved the way for Confederate defeat. In Davis and Lee at War he concludes his study of Davis as rebel commander-in-chief and shows how the lack of a unified purpose and strategy in the East sealed the Confederacy's fate. Woodworth argues that Davis and Robert E. Lee, the South's greatest military leader, had sharply conflicting views over the proper conduct of the war. Davis was convinced that the South should fight a defensive war, to simply outlast the North's political and popular support for the war. By contrast, Lee and the other eastern generals - notably P.G.T. Beauregard, Gustavus Smith, and Stonewall Jackson - were eager for the offensive. They were convinced that only quick and decisive battlefield victories would prevent the North from eventually defeating them with its overwhelming advantage in men and materials. The result of this tense tug-of-war was Davis's misguided pursuit of a middle ground that gave neither strategy its best chance for success.

Murder at Small Koppie Sep 01 2022 The killing of thirty-four miners by police at Marikana in August 2012 was the largest massacre of civilians in South Africa since Sharpeville. The events have been covered in newspaper articles, on TV news and in a commission of inquiry, but there is still confusion about what happened on that fateful day. In Murder at Small Koppie, renowned photojournalist Greg Marinovich explores the truth behind the Marikana massacre. He investigates the shootings near Wonderkop hill, which happened in view of the media, as well as the killings that happened beyond the view of cameras at a nondescript collection of boulders known as Small Koppie, some 300 metres away. Many of the men killed here were shot in cold blood at close range. Drawing on his own meticulous research, eyewitness accounts and the findings of the Marikana Commission of Inquiry, Marinovich accurately reconstructs that fateful day as well as the events leading up to the strike, and looks at the subsequent denials, obfuscation and buck-passing by Lonmin, the SAPS and the government. This is the definitive account of the Marikana massacre from the journalist whose award-winning investigation into the tragedy has been called the most important piece of South African journalism since apartheid.
