Black November Sep 08 2020 Michigan's "storms of November" are famous in song, lore, and legend and have taken a tragic toll, breaking the hulls of many ships and sending them to cold, dark, and silent graves on the bottoms of the Great Lakes. On November 18, 1958, when the limestone carrier Carl D. Bradley broke up during a raging storm on Lake Michigan, it became the largest ship in Great Lakes' history to vanish beneath storm-tossed waves. Along with the Bradley, thirty-three crew members perished. Most of the casualties hailed from the little harbor town of Rogers City, Michigan, a community that was stung with grief when, in an instant, twenty-three women became widows and fifty-three children were left fatherless. Nevertheless, this is also a story of survival, as it recounts the tale of two of the ship's crew, whose fifteen-hour ordeal on a life raft, in gale-force winds and 25 foot waves, is a remarkable story of endurance and tenacity. Written in a style that is equally appealing to young adults and adult readers, *Black November* is a tale of adventure, courage, heroism, and tragedy. Kantar, the author of *29 Missing*, a book about the loss of the great lakes freighter the Edmund Fitzgerald, has once again crafted a dramatic narrative that is both informative and compelling. Although the Carl D. Bradley has been called "the ship that time forgot," *Black November* recalls that tragic day nearly fifty years ago and is a moving tribute to the ship and its crew.

New Media in New Europe-Asia Jul 07 2020 This volume offers an in-depth investigation of the role of new media in the political, social and cultural life in the region of Europe-Asia. By focusing on new media, which is understood primarily as internet-enabled networked social practice, the book puts forward a political and cultural redefinition of the region which is determined by the recognition of the diversity of new media uses in the countries included in the study. This book focuses on the period prior to the advent of 'world internet revolutions', and it registers the region at its pivotal moment—at the time of its entry into the post-broadcast era. Does the Internet aid democratisation or is it conditioned by socio-political norms? Has the Internet changed politics or has it had to fit existing political structures? Has the use of digital technologies revolutionized election campaigns? How is hyperlinked society different from society prior to the advent of the web? How do ordinary people actually use the Internet. These and other pressing questions – crucial to understanding the post-socialist world – are investigated in the current volume. This book was published as a special issue of *Europe-Asia Studies*.

The Reputational Imperative Oct 10 2020 India's first prime minister, Jawaharlal Nehru, left behind a legacy of both great achievements and surprising defeats. Most notably, he failed to resolve the Kashmir dispute with Pakistan and the territorial conflict with China. In the fifty years since Nehru's death, much ink has been spilled trying to understand the decisions behind these puzzling foreign policy missteps. Mahesh Shankar cuts through the surrounding debates about nationalism, idealism, power, and security

with a compelling and novel answer: reputation. India's investment in its international image powerfully shaped the state's negotiation and bargaining tactics during this period. The Reputational Imperative proves that reputation is not only a significant driver in these conflicts but also that it's about more than simply looking good on the global stage. Considerations such as India's relative position of strength or weakness and the value of demonstrating resolve or generosity also influenced strategy and foreign policy. Shankar answers longstanding questions about Nehru's territorial negotiations while also providing a deeper understanding of how a state's global image works. The Reputational Imperative highlights the pivotal—yet often overlooked—role reputation can play in a broad global security context. University of Kansas Paleontology Contributions May 05 2020

The Czech version provides a true diplomatic transcription of Martin?'s manuscript letters and includes facsimiles of the correspondence. Comprehensive annotations give historical context. A.J. Gordon Nov 22 2021 This is a biographical study which surveys the life and career of Boston Baptist Adoniram Judson Gordon (1836-1895) and examines pre-millennialism as his motivation and source of his theological understanding. The study examines a moderate Calvinistic Baptist, tracing his theological development and analyzing his embrace of pre-millennialism and its substantial impact on his pastorate, denominational work, relationships, and enterprises. Gordon's significant role in the shaping of late nineteenth-century North American Evangelical Protestant Christianity is demonstrated in this biography.
