Moral Issues and Christian Responses Jul 22 2019 Previously published by Cengage/Wadsworth, this popular anthology for the study of Christian ethics has been a mainstay of undergraduate courses for nearly thirty years. Shannon and Patricia Jung provide an introduction to contemporary moral issues from decidedly, yet diverse, Christian moral perspectives. The anthology intentionally seeks a range of voices to produce a kind of "point/counterpoint" discussion of the ethical issue. Among the classic issues considered are: sexuality and reproductive rights, prejudice, biomedical ethics, the environment, immigration, terrorism, war, and globalization. New issues include: development ethics, personal finance and consumerism, workplace ethics, health care, and citizenship.

Apocalypticism and Eschatology in Late Antiquity Oct 17 2021 This volume includes papers on ancient apocalypticism and eschatology in the crucial period prior to the advent of Islam in the Mediterranean basin, and through the period (the sixth to the eighth centuries) when this new religion took roots and established itself in the area. As these were important social, religious, and cultural phenomena, the contributors to this volume - specialists in Late Antique and Byzantine, Syriac, Jewish, and Arabic studies - have investigated them from a variety of angles and foci, rendering this volume unique in terms of its interdisciplinary approach and broad scope. In this regard, Apocalypticism and Eschatology in Late Antiquity should be read as complimentary to the previous volume in the series, New Themes, New Styles in the Eastern Mediterranean, where similar goals were set and met, namely to understand not only how the Christian and Jewish populations responded to the dramatic political and military changes, but also how they expressed themselves in existing, reinvented, and new literary means at their disposal.

[Women, Church, and Leadership: New Paradigms](#) Sep 23 2019 This book is about leadership, a scholarly and pastoral response to the urgent demand for the renewal of the contemporary Christian church. It challenges readers to articulate the identity and vision of the church in new ways, and encourages them to revitalize their ministry with fresh insight and passion from women's perspectives. The eight essays written by female scholars in relation to various areas of theological study and the nine pastoral responses to the essays written by ministers from seven different denominations, based on their experiences of actual ministerial settings, provide new paradigms of church leadership--theologically profound, practically relevant, and historically timely. This volume, a product of a collaborative process between academia and church, promises to be a most

useful resource to renew the leadership of the church and its vocational commitment to the transformation of the church and society.

The 8th Mountain Dec 19 2021 Those who spend time with God and His Word and His Spirit, and who dwell in His presence and commune with Him and develop a personal relationship with Him, become transformed in the process and thus are better informed, equipped and empowered to attract, steward and exercise influence in the 7 Mountains of Culture (Arts & Entertainment, Business & Economy, Education, Family, Government & Law, Media, and Religion). That is the basic premise and thesis of this book. Moreover, I assert that such transformation is not only possible for disciples of Christ, but, rather, it is imperative and essential to successfully fulfill our divine assignments, callings and destinies. Several places in Scripture such as Micah 4:1 and Isaiah 2:2 mention "the mountain of the Lord" or "the mountain of the house of the Lord," that is above all the other mountains, and is the chief mountain, depending on the particular translation used. This phrase refers to the place of God's abode, or heaven, and for our purposes here, I refer to it as the 8th Mountain. Mountains in Scripture refer to kingdoms, authority, rule and dominion. The 8th Mountain is calling your name. You've read about what awaits you, and what lies ahead on this trek to the spiritual summit. You can think of this book as your mountaineering school curriculum and training manual for the 8th Mountain, to educate, train and prepare you for climbing, and reaching the summit, of the highest peak in the universe. It teaches you survival skills, how to thrive and be successful, how to work as a team, how to ascend and descend, how to avoid or minimize danger, what gear and supplies to take, how to monitor changing weather conditions, and how to save your life and protect yourself and those around you in the harsh climate, adverse conditions, and unforgiving environment of the 7 Mountains of Culture. Just as Mount Everest is the highest point on earth, the 8th Mountain - the Mountain of the Lord - is the highest point in the universe, and is heaven itself. The old saying, "It's lonely at the top" doesn't apply here. There's no reason to be lonely on the 8th Mountain, and lots of reasons to be fulfilled and satisfied - full of joy and peace and love - and there's a whole community of fellow climbers for you to meet and get to know. Some are more experienced than others, and are at different levels of skill and knowledge and physical and spiritual conditioning, but we're all still learning and growing, and are on a journey that will last for a lifetime, and an eternity. We hope that you will join us, and we invite you to do so.

Model Rules of Professional Conduct Dec 07 2020 The Model Rules of Professional Conduct provides an up-to-date resource for information on legal ethics. Federal, state and local courts in all jurisdictions look to the Rules for guidance in solving lawyer malpractice cases, disciplinary actions, disqualification issues, sanctions questions and much more. In this volume, black-letter Rules of Professional Conduct are followed by numbered Comments that explain each Rule's purpose and provide suggestions for its practical application. The Rules will help you identify proper conduct in a variety of given situations, review those instances where discretionary action is possible, and define the nature of the relationship between you and your clients, colleagues and the courts.

Cultures of Commemoration Aug 23 2019 In 1941 the Japanese military attacked the US naval base Pearl Harbor on the Hawaiian island of Oahu. Although much has been debated about this event and the wider American and Japanese involvement in the war, few scholars have explored the Pacific War's impact on Pacific Islanders. Cultures of Commemoration fills this crucial gap in the historiography by advancing scholarly understanding of Pacific Islander relations with and knowledge of American and Japanese colonialisms in the twentieth century. Drawing from an extensive archival base of government, military, and popular records, Chamorro scholar Keith L Camacho traces the formation of divergent colonial and indigenous histories in the Mariana Islands, an archipelago located in the western Pacific and home to the Chamorro people. He shows that US colonial governance of Guam, the southernmost island, and that of Japan in the Northern Mariana Islands created competing colonial histories that would later inform how Americans, Chamorros, and Japanese experienced and remembered the war and its aftermath. Central to this discussion is the American and Japanese administrative development of "loyalty" and "liberation" as concepts of social control, collective identity, and national belonging. Just how various Chamorros from Guam and the Northern Mariana Islands negotiated their multiple identities and subjectivities is explored with respect to the processes of history and memory-making among this "Americanized" and "Japanized" Pacific Islander population. In addition, Camacho emphasizes the rise of war commemorations as sites for the study of American national historic landmarks, Chamorro Liberation Day festivities, and Japanese bone-collecting missions and peace pilgrimages. Ultimately, Cultures of Commemoration demonstrates that the past is made meaningful and at times violent by competing cultures of American, Chamorro, and Japanese commemorative practices.

The multiple authors included in each chapter represent a range of interests, geographic foci, and ways of looking at each subject. Features of the ninth edition include new study questions and articles, as well as updated discussions on religion, illness, healing, and death.

Rural Rides Oct 05 2020 Rural Rides is the book for which the English journalist, agriculturist and political reformer William Cobbett is best known. At the time of writing Rural Rides, in the early 1820s, Cobbett was a radical anti-Corn Law campaigner. He embarked on a series of journeys by horseback through the countryside of Southeast England and the English Midlands. He wrote down what he saw from the points of view both of a farmer and a social reformer. The result documents the early 19th-century countryside and its people as well as giving free vent to Cobbett's opinions

The Gospel of the Flying Spaghetti Monster Jun 13 2021 Can I get a "ramen" from the congregation?! Behold the Church of the Flying Spaghetti Monster (FSM), today's fastest growing carbohydrate-based religion. According to church founder Bobby Henderson, the universe and all life within it were created by a mystical and divine being: the Flying Spaghetti Monster. What drives the FSM's devout followers, a.k.a. Pastafarians? Some say it's the assuring touch from the FSM's "noodly appendage." Then there are those who love the worship service, which is conducted in pirate talk and attended by congregants in dashing buccaneer garb. Still others are drawn to the Church's flimsy moral standards, religious holidays every Friday, or the fact that Pastafarian heaven is way cooler: Does your heaven have a Stripper Factory and a Beer Volcano? Intelligent Design has finally met its match—and it has nothing to do with apes or the Olive Garden of Eden. Within these pages, Bobby Henderson outlines the true facts—dispelling such malicious myths as evolution ("only a theory"), science ("only a lot of theories"), and whether we're really descended from apes (fact: Humans share 95 percent of their DNA with chimpanzees, but they share 99.9 percent with pirates!) See what impressively credentialed top scientists have to say: "If Intelligent Design is taught in schools, equal time should be given to the FSM theory and the non-FSM theory." "Professor Douglas Shaw, Ph.D. "Do not be hypocritical. Allow equal time for other alternative "theories" like FSMism, which is by far the tastier choice." "J. Simon, Ph.D. "In my scientific opinion, when comparing the two theories, FSM theory seems to be more valid than classic ID theory." "Afshin Beheshti, Ph.D. Read the book and decide for yourself!

The Comparative 1st Century Aramaic Bible in Plain English (8th ed.) & King James Version New Testament with Psalms and Proverbs May 12 2021 This is the 3rd comparative edition of the 8th edition translation of The Aramaic New Testament (Aramaic was the language of Jesus and his countrymen of 1st century Israel) in an English prose translation of The Peshitta New Testament displayed in two columns- one has the King James Version on the left and the other has the translation of the Aramaic Peshitta on the right. This translation is derived from the author's Aramaic-English Interlinear New Testament. Aramaic was used in Mel Gibson's film "The Passion of the Christ" to make the film as realistic and accurate as possible. This New Testament will surprise and thrill the reader with its power and inspiration coming from the words of "Yeshua" ("Jesus" in ancient Aramaic) as He originally spoke them, in a literal and readable English rendering. 659 pages in 6x9" paperback. The parallel Psalms and Proverbs of both versions are included after the NT.

The Limits of Religions Thought Examined in 8 Lectures ... on the Foundation of Late J. Bampton Sep 04 2020

Eight Theories of Religion Jun 25 2022 Why do human beings believe in divinities? Why do some seek eternal life, while others seek escape from recurring lives? Why do the beliefs and behaviors we typically call "religious" so deeply affect the human personality and so subtly weave their way through human society? Revised and updated in this second edition, Eight Theories of Religion considers how these fundamental questions have engaged the most important thinkers of the modern era. Accessible, systematic, and succinct, the text examines the classic interpretations of religion advanced by theorists who have left a major imprint on the intellectual culture of the twentieth century. The second edition features a new chapter on Max Weber, a revised introduction, and a revised, expanded conclusion that traces the paths of further inquiry and interpretation traveled by theorists in the most recent decades. Eight Theories of Religion, Second Edition, begins with Edward Burnett Tylor and James Frazer—two Victorian pioneers in anthropology and the comparative study of religion. It then considers the great "reductionist" approaches of Sigmund Freud, Emile Durkheim, and Karl Marx, all of whom have exercised wide influence up to the present day. The discussion goes on to examine the leading challenges to reductionism as articulated by sociologist Max Weber (new to this edition) and Romanian-American comparativist Mircea Eliade. Finally, it explores the newer methods and ideas arising from the African field studies of ethnographer E. E. Evans-Pritchard and the interpretive anthropology of Clifford Geertz. Each chapter offers biographical background, theoretical exposition, conceptual analysis, and critical assessment. This common format allows for close comparison and careful evaluation throughout. Ideal for use as a supplementary text in introductory religion courses or as the central text in sociology of religion and courses centered on the explanation and interpretation of religion, Eight Theories of Religion, Second Edition, offers an illuminating treatment of this controversial and fascinating subject.

Religious Identities in Henry VIII's England Jul 14 2021 In this volume Peter Marshall explores a wide range of evidence that underlines the complex web of overlapping and competing religious identities that Henry VIII's subjects were forced to assume as he sought to take control of the English church. Investigating broad issues of conversion, polemic and propaganda, scripture, exile, forgery and miracles, as well as looking at specific cases of individuals and events, a rich picture is built up of the ambiguities and paradoxes of the early reformation process in England. This book includes three entirely new chapters, and eight previously published but updated essays.

Religion and Politics in the United States Feb 21 2022 From marriage equality, to gun control, to immigration reform and the threat of war, religion plays a fascinating and crucial part in our nation's political process and in our culture at large. Now in its seventh edition, Religion and Politics in the United States includes analyses of the nation's most pressing political matters regarding religious freedom, and the ways in which that essential constitutional freedom situates itself within modern America. The book also explores the ways that religion has affected the orientation of partisan politics in the United States. Through a detailed review of the political attitudes and behaviors of major religious and minority faith traditions, the book establishes that religion continues to be a major part of the American cultural and political milieu while explaining that it must interact with many other factors to influence political outcomes in the United States.
