When Amy falls head over heels for mega talent agent Richard Berg, she's confident her newfound love will connect her to her acting dreams. And why wouldn't she believe this? *Mice in the Freezer, Owls on the Porch* Aug 09 2020 Mice in the Freezer, Owls on the Porch is in many ways a love story—about a quiet scientist and his flamboyant wife, but also about their passions for hunting, for wild lands, and for the grouse and raptor species that they were instrumental in saving from destruction. From the papers and letters of Frederick and Frances Hamerstrom, the reminiscences of contemporaries, and her own long friendship with this extraordinary

couple who were her neighbors, Helen Corneli draws an intimate picture of Fran and "Hammy" from childhood through the genesis and maturation of a romantic, creative, and scientific relationship. Following the Hamerstoms as they give up a life of sophisticated convention and comfort for the more "civilized" (as Aldo Leopold would have it) pleasures of living and conducting on-the-spot research into diminishing species, Corneli captures the spirit of the Hamerstoms, their profession, and the natural and human environments in which they worked. A nuanced account of the labors, adventures, and achievements that distinguished the Hamerstoms over the years—and that inspired a generation of naturalists—this book also provides a dramatic account of conservation history over the course of the twentieth century, particularly in Wisconsin during the eventful years from the 1920s through the 1970s.

**Cherish Farrah** Jun 30 2022 Named A Most Anticipated Book of 2022 by \*Medium\* \*BookRiot\* \*BookPage\* CrimeReads\* Tor Nightfire\* Bookshop\* \*Book Talk\* BiblioLifestyle\* and more! From bestselling author Bethany C. Morrow comes a new adult social horror novel in the vein of Get Out meets My Sister, the Serial Killer, about Farrah, a young, calculating Black girl who manipulates her way into the lives of her Black best friend's white, wealthy, adoptive family but soon suspects she may not be the only one with ulterior motives. . . . Seventeen-year-old Farrah Turner is one of two Black girls in her country club community, and the only one with Black parents. Her best friend, Cherish Whitman, adopted by a white, wealthy family, is something Farrah likes to call WGS—White Girl Spoiled. With Brianne and Jerry Whitman as parents, Cherish is given the kind of adoration and coddling that even upper-class Black parents can't seem to afford—and it creates a dissonance in her best friend that Farrah can exploit. When her own family is unexpectedly

confronted with foreclosure, the calculating Farrah is determined to reassert the control she's convinced she's always had over her life by staying with Cherish, the only person she loves—even when she hates her. As troubled Farrah manipulates her way further into the Whitman family, the longer she stays, the more her own parents suggest that something is wrong in the Whitman house. She might trust them—if they didn't think something was wrong with Farrah, too. When strange things start happening at the Whitman household—debilitating illnesses, upsetting fever dreams, an inexplicable tension with Cherish's hotheaded boyfriend, and a mysterious journal that seems to keep track of what is happening to Farrah—it's nothing she can't handle. But soon everything begins to unravel when the Whitmans invite Farrah closer, and it's anyone's guess who is really in control. Told in Farrah's chilling, unforgettable voice and weaving in searing commentary on race and class, this slow-burn social horror will keep you on the edge of your seat until the last page.

**The Dark Net** Mar 28 2022 "Thrilling . . . one of the best Stephen King

novels not written by the master himself. . . . The setup promises furious action, and Percy delivers, like [Richard] Matheson, like King. . . . An awfully impressive literary performance.”—New York Times Book Review “Masterful crafting . . . a horror story for our times.”—Minneapolis Star Tribune The Dark Net is real. An anonymous and often criminal arena that exists in the secret far reaches of the Web, some use it to manage Bitcoins, pirate movies and music, or traffic in drugs and stolen goods. And now, an ancient darkness is gathering there as well. This force is threatening to spread virally into the real world unless it can be stopped by members of a ragtag crew, including a twelve-year-old who has been fitted with a high-tech visual prosthetic to combat her blindness; a technophobic journalist; a one-time child evangelist with an arsenal in his basement; and a hacker who believes himself a soldier of the Internet. Set in present-day Portland, *The Dark Net* is a cracked-mirror version of the digital nightmare we already live in, a timely and wildly imaginative techno-thriller about the evil that lurks in real and virtual spaces, and the power of a united few to fight back. “This is horror literature’s bebop, bold, smart, confident in its capacity to redefine its genre from the ground up. Read this book, but take a firm grip on your hat before you start.”—Peter Straub

In *The Demon in the Freezer*, his first nonfiction book since *The Hot Zone*, a #1 New York Times bestseller, Richard Preston takes us into the heart of Usamriid, the United States Army Medical Research Institute of Infectious Diseases at Fort Detrick, Maryland, once the headquarters of the U.S. biological weapons program and now the epicenter of national biodefense. Peter Jahrling, the top scientist at Usamriid, a wry virologist who cut his teeth on Ebola, one of the world’s most lethal emerging viruses, has ORCON security clearance that gives him access to top secret information on bioweapons. His most urgent priority is to develop a drug that will take on smallpox—and win. Eradicated from the planet in 1979 in one of the great triumphs of modern science, the smallpox virus now resides, officially, in only two high-security freezers—at the Centers for Disease Control in Atlanta and in Siberia, at a Russian virology institute called Vector. But the demon in the freezer has been set loose. It is almost certain that illegal stocks are in the possession of hostile states, including Iraq and North Korea. Jahrling is haunted by the thought that biologists in secret labs are using genetic engineering to create a new superpox virus, a smallpox resistant to all vaccines. Usamriid went into a state of Delta Alert on September 11 and activated its emergency response teams when the first anthrax letters were opened in New York and Washington, D.C. Preston reports, in unprecedented detail, on the government’s response to the attacks and takes us into the ongoing FBI investigation. His story is based on interviews with top-level FBI agents and with Dr. Steven Hatfill. Jahrling

is leading a team of scientists doing controversial experiments with live smallpox virus at CDC. Preston takes us into the lab where Jahrling is reawakening smallpox and explains, with cool and devastating precision, what may be at stake if his last bold experiment fails.

The Freezer Door Sep 02 2022 A meditation on the trauma and possibility of searching for connection in a world that enforces bland norms of gender, sexual, and social conformity. When you turn the music off, and suddenly you feel an unbearable sadness, that means turn the music back on, right? When you still feel the sadness, even with the music, that means there's something wrong with this music. Sometimes I feel like sex without context isn't sex at all. And sometimes I feel like sex without context is what sex should always be.--*The Freezer Door* *The Freezer Door* records the ebb and flow of desire in daily life. Crossing through loneliness in search of communal pleasure in Seattle, Mattilda Bernstein Sycamore exposes the failure and persistence of queer dreams, the hypocritical allure of gay male sexual culture, and the stranglehold of the suburban imagination over city life. Ferocious and tender, *The Freezer Door* offers a complex meditation on the trauma and possibility of searching for connection in a world that relentlessly enforces bland norms of gender, sexual, and social conformity while claiming to celebrate diversity.

**REVIEW Monster, She Wrote** Dec 25 2021 Meet the women writers who defied convention to craft some of literature's strangest tales, from Frankenstein to The Haunting of Hill House and beyond. Frankenstein was just the beginning: horror stories and other weird fiction wouldn't exist without the women who created it. From Gothic ghost stories to psychological horror to science fiction, women have been primary architects of speculative literature of all sorts. And their own life stories are as intriguing as their fiction. Everyone knows about Mary Shelley, creator of Frankenstein, who was rumored to keep her late husband's heart in her desk drawer. But have you heard of Margaret "Mad Madge" Cavendish, who wrote a science-fiction epic 150 years earlier (and liked to wear topless gowns to the theater)? If you know the astounding work of Shirley Jackson, whose novel The Haunting of Hill House was reinvented as a Netflix series, then try the psychological hauntings of Violet Paget, who was openly involved in long-term romantic relationships with women in the Victorian era. You'll meet celebrated icons (Ann Radcliffe, V. C. Andrews), forgotten wordsmiths (Eli Colter,

Ruby Jean Jensen), and today's vanguard (Helen Oyeyemi). Curated reading lists point you to their most spine-chilling tales. Part biography, part reader's guide, the engaging write-ups and detailed reading lists will introduce you to more than a hundred authors and over two hundred of their mysterious and spooky novels, novellas, and stories.
