Raising Our Hands Dec 13 2020 White women are one of the most influential demographics in America—we are the largest voting bloc, with purchasing power that exceeds anybody else's, and when we unify to demand change, we are a force to be reckoned with. Yet, so many of us sit idly on the sidelines, opting out of raising our hands to do, learn, and engage in ways that could make a difference. Why? White American women are no monolith. Yet, as Women's March national organizer Jenna Arnold has learned over the past few years criss-crossing the US in conversations with white women about their identity and role in the country, we do possess common characteristics—ones that get in the way of us becoming more engaged as citizens. We're so focused on checking off our to-do lists, or so afraid of getting it wrong, or so busy trying to avoid conflict, that we are actively avoiding the urgent conversations we need to have. We are confused about how we got here and unsure how to do better. Raising Our Hands is the reckoning cry for white women. It asks us to step up and join the new frontlines of the fight against complacency—in our homes, in our behaviors, and in our own minds. Consider Raising Our Hands your starting place, your "Intro to Being a White Woman in Today's World" freshman-year class. In these pages, Jenna peels back the history that's been kept out of textbooks and the cultural norms that are holding us back,

so we can finally start really listening to marginalized voices and doing our part to promote progress. The American white woman is a powerful force—an essential participant—to mobilize alongside the rest of humanity on behalf of the world, and we can no longer make excuses for why we don't have time or don't know enough.

Palm Beach Aug 28 2019 Early in the 1900s, one-time oil baron Henry Morrison Flagler took interest in the Southern coast of Florida and began developing an exclusive resort community. Establishing a railroad that would allow easier access to the area, he went on to build two hotels—his hope was that America's first families would come to populate the area. This modest community would later evolve into an iconic American destination, hosting British royalty, American movie stars, and becoming the home-away-from-home to some of the country's leading families. As the century continued, Palm Beach established itself as a luxury hideaway synonymous with old-world glamour and new-world sophistication. In this splendid volume, longtime resident and Palm Beach social fixture Aerin Lauder takes us through her Palm Beach. From favorite restaurants like Nandos and Renatos, to favorite houses like La Follia and Villa Artemis, she takes us to the elite shopping of Worth Avenue and the scenic walkways of the Lake Worth trail, all the while relating to us the histories, faces, and places that have become so identified with Palm Beach.
