Creating Your BE-Print Jul 25 2019 "Creating Your BE-Print: Drafting Your Personal Blueprint For Living" by Shelley Roy and Glenn Smith introduces The BE-Print [, a document and a process that asks the reader to look deep within and explore their depths. Just as an architect needs a blueprint to build a structure, a person needs a BE-Print to build a life. There are two problems facing most people: they do not apply self-discipline to creating the life they desire and most people have no clue what criteria on which to evaluate themselves. If this criterion does not exist, individuals are prone to evaluate others, worry about how others evaluate them, and evaluate what is happening to them. With BE-Print, the focus shifts from others to you and who you want to be in any given situation. What makes this approach to personal exploration different is its strong foundation in scientific research on human behavior Perceptual Control Theory (PCT) along with the latest thinking on learning, change, leadership, and organizational development. The focus of this book is on this moment forward and helping you handle the vicissitudes of life. This book is not about digging into your past but digging deep within yourself. It is about living in the now with an eye on the future. While reading you will engage in self-evaluation and self-reflection, trying to pull from within you the person you want to be. Unlike other self-help books this book does not provide rules to follow or strategies that apply in a limited number of situations to specific problems; instead, it helps you become the best you in EVERY situation. Related resources and an upcoming events schedule are available at the Be-Print for Living website, www.be-print.net.

Blueprint Jun 03 2020 "A dazzlingly erudite synthesis of history, philosophy, anthropology, genetics, sociology, economics, epidemiology, statistics, and more" (Frank Bruni, The New York Times), Blueprint shows why evolution has placed us on a humane path -- and how we are united by our common humanity. For too long, scientists have focused on the dark side of our biological heritage: our capacity for aggression, cruelty, prejudice, and self-interest. But natural selection has given us a suite of beneficial social features, including our capacity for love, friendship, cooperation, and learning. Beneath all of our inventions -- our tools, farms, machines, cities, nations -- we carry with us innate proclivities to make a good society. In Blueprint, Nicholas A. Christakis introduces the compelling idea that our genes affect not only our bodies and behaviors, but also the ways in which we make societies, ones that are surprisingly similar worldwide. With many vivid examples -- including diverse historical and contemporary cultures, communities formed in the wake of shipwrecks, commune dwellers seeking utopia, online groups thrown together by design or involving artificially intelligent bots, and even the tender and complex social arrangements of elephants and dolphins that so resemble our own -- Christakis shows that, despite a human history replete with violence, we cannot escape our social blueprint for goodness. In a world of increasing political and economic polarization, it's tempting to ignore the positive role of our evolutionary past. But by exploring the ancient roots of goodness in civilization, Blueprint shows that our genes have shaped societies for our welfare and that, in a feedback loop stretching back

many thousands of years, societies are still shaping our genes today.

The Quit Alternative Nov 01 2022 Here are the top 5 reasons this professional development book is a MUST READ:1) You can create the job you love without quitting your job and giving up

your steady paycheck, 401(k), and insurance. This book shows you how. You won't find this information in traditional career guides. It is 100% possible for you, even if you've been considering how to quit your job or how to snag a job you love.2) You'll be entertained (and secretly educated). You'll laugh, cry, and maybe even feel compelled to leave a copy on your boss' desk. Stick with me, and you'll discover helpful principles that will make you the talk of the water cooler. This isn't another ho-hum professional development book, and it's not a "how to find a job" guide full of blank forms. You'll learn a new and inspiring perspective through unforgettably entertaining stories, like what I learned the day my shrink fired me, how I negotiated for a toilet seat on the corporate jet, and how I got called out by my masseuse.3) You'll become empowered, whether you're the mail clerk or CEO or you fall somewhere in between. This book has been endorsed by 5 senior executive leaders of Fortune 1000 companies and 3 mail clerks.4) You'll discover a return on your investment to earn a car. Invest a few dollars and a little bit of time to read this book, and you'll pick up career development tips that can save you enough to earn a car (page 9).5) You'll have a "Personal Career Counselor in Your Pocket." It's useful and practical with vivid case studies for how to negotiate with the boss to help pay for your MBA or support a relocation to the city of your dreams. You'll also learn how to deal with an unreasonable boss and even say "No" without getting fired.

The Center of Experience Apr 25 2022 We find ourselves at an inflection point in the relationship between brands and their audiences, where customers and employees are demanding better and more valuable experiences. Companies must keep up with this demand in order to remain competitive. This includes competition for both customers as well as employees. More importantly, while many organizations have traditionally focused on external-facing initiatives first, it is the ones which start internally that have the greatest potential to provide long-term positive benefits. "With honest expression and stimulating, provocative thinking, Greg comes from a place of passion and understanding of what it takes to achieve value. You'll be reading words from someone who has been there and done that. Who has a vision and a plan for the "how to" rather than just theory," says Diane Magers, CEO of Experience Catalysts. The book provides a blueprint for organizations to implement a center of excellence incorporating brand experience, or the combination of customer and employee experience. Each property of experience is articulated and explained in detail, including brand, governance, culture, platform, measurement, and environment. The book also provides recommendations on how an organization can begin to implement a Center of Experience of their own, and how success is measured. The Center of Experience features a foreword from Diane Magers, Former Interim CEO for the Customer Experience Professionals Association (CXPA) and Founder and CEO of Experience Catalysts, and pioneer in the discipline of experience. The Center of Experience is Kihlström's sixth book, following his Agile series, which started with 2016's *The Agile Web*, followed by *The Agile Brand* (2018) and *The Agile Consumer* (2019). It is his second book on customer and employee experience, following *Digital Delight*, which was compiled from a series of his articles and released in 2019.

Blueprint for a Book May 27 2022 How to write a novel in the most efficient way by tackling the hardest part before you start to write, from top book coach Jennie Nash "This process makes me want to write, and it makes what I'm writing better. I read it before every draft. It's that good." -KJ Dell'Antonia, New York Times bestselling author of *The Chicken Sisters* Whether you're writing your first novel or your tenth, there is a temptation to pin it to the page before it disappears. It's such a brilliant idea and you can see the whole thing shimmering in your mind, just out of reach. Maybe you do some work on character development and plotting, but you're a racehorse at the gate, ready to run, ready to write. This book is an argument to stop and define the foundational elements of your story before you keep writing - which means understanding your motivation as a writer, considering your reader's expectations, and making sure your story has a solid structure

that will hold up inside and out from beginning to end. This clarity is what gives a novel its power and a writer their confidence. Jennie Nash is the creator of the Book Coach Certification program at Author Accelerator and has taught hundreds of book coaches and thousands of novelists how to use the Blueprint for a Book system-and the Inside Outline at the heart of it - to help them produce their best work in the most efficient way. "Jennie Nash turned me into a plotter and changed the way I think about approaching any new project. I'm an Inside Outside outline fan for life!" -Alison Hammer, author of *You and Me and Us* and *Little Pieces of Me* "If you are about to start writing or revising your novel - hold up! You need this book before putting fingers to keyboard. It's a step-by-step design-your-novel manual that encapsulates the most important aspect of great story-telling: how to reach deep into your writerly heart and into the heart of the story you want to bring to life." - Janet Fox, author of *The Artifact Hunters* "I will sing the praises of the Inside Outline forever. It's f*ing genius." -Carla Naumburg, author of *How to Stop Losing Your Sh*t With Your Kids* "The Inside Outline is making writing easier. I can focus more on the writing rather than discovering what the scene is about when I'm creating it. Why isn't every writer using it? Instead, people are plonking down good money to be told ten key steps in writing dialogue or setting a scene. I'm so grateful I'm no longer one of them." - Kate Kimball, first time novelist
