Maximum Performance Sep 04 2020 "Since the early days of racing, Chrysler, Dodge, and Plymouth have dominated drag strips and race tracks. During 1955 alone, Chrysler 300s won 37 major stock car races and clinched both the NASCAR and AAA stock car championships. Although the impressive engine options of 1950s consistently out-performed the competition, they were a mere opening act for the extremes of performance that would be unleashed throughout the 1960s--the golden era of drag racing and factory super-performance cars. *Maximum Performance: Super Stock Drag Racing 1962-1969* details Chrysler's amazing dominance in this era. Its drivers were among drag racing's first paid professional racers, and this book covers the complete story of Mopar drag racing accompanied by historical imagery as well as contemporary photos. This is the real story behind Super Stock and Factory Experimental drag racing as told the people who lived it!"--Publisher's description.

My First Forty Cars Dec 07 2020 With a grandfather who drove a horse car in 1900 and who later had a 25-year career as a chauffeur for a wealthy family, Nelson Bolan has a unique viewpoint about the automotive industry during the first half of the 20th century. In later years, Bolan began his own car acquisitions. His first, a 1929 Chevrolet, was purchased for \$100 in celebration of his brother's safe return from World War II and his own high school graduation. It had an outside gasoline gauge, and if the driver forgot to read the gauge before getting into the driver's seat, he had no way of knowing how much fuel he had. (Chevrolet made the change to dashboard gauges in 1930.) The car also had actual wooden floor boards, which were removed and reinstalled easily when servicing was necessary. This automotive memoir includes a chapter for each of Bolan's first forty cars, including photographs of the actual vehicles where possible. Most were well aged at the time of purchase; the earliest was a 1917 Dodge Brothers. A nostalgic but factual recollection of each car in the order it was acquired, the book includes interesting information about each model and Bolan's mechanical adventures from the 1940s to the 1990s.

But years later, when his mother's death is clouded in suspicion, he returns to Edgewater only to find that he not only has to face his past, but also deal with a complex set of new enemies and obstacles. *A Shadow From the Past* is an earnest novel, deeply felt and worked out with a good deal of honesty and force. Randy Curtis, returning to Edgewater after a mysterious 10-year absence for his mother's funeral is able at last to set his life to rights, reconcile and find true love with Lori, the girl who had abandoned him (and who he in turn had abandoned), and bring to justice the four teenagers who terrorized his helpless mother. But in the process Randy is forced to become something dark, something secret, something that he fears will ultimately be his own demise.
