Storia E Immagine Della Diversità Urbana: Luoghi E Paesaggi Dei Privilegi E Del Benessere, Dell'isolamento, Del Disagio, Della Multiculturalità. Ediz. Italiana E Inglese* Oct 01 2022 This volume proposes a rich corpus of papers about the 'Other City', a subject only few times dealt with, but worthy of all our attention: it imposes itself on the scene of international modern and contemporary historiography for its undeniable topicality. Throughout history, the city has always had to deal with social 'otherness', i.e. with class privileges and, consequently, with discrimination and marginalization of minorities, of the less well-off, of foreigners, in short, with the differences in status, culture, religion. So that the urban fabric has ended up structuring itself also in function of those inequalities, as well as of the

strategic places for the exercise of power, of the political, military or social control, of the spaces for imprisonment, for the sanitary isolation or for the 'temporary' remedy to the catastrophes. From the first portraits of cities, made and diffused at the beginning of the fifteenth century for political exaltation purposes or for religious propaganda and for devotional purposes, which often, through increasingly refined graphic techniques, distort or even deny the true urban image, we reach, at the dawn of contemporary history, the new meaning given by scientific topography and new methods of representation; these latter aimed at revealing the structure and the urban landscape in their objectivity, often unexpected for who had known the city through the filter of 'regime' iconography. The representation of the urban image still shows the contradictions of a community that sometimes includes and even exalts the diversities, other times rejects them, showing the unease of a difficult integration. Projects and Complexity Jan 12 2021 Helpful to those tasked with managing complex environments, *Projects and Complexity* introduces a new way of looking at projects and fostering the culture needed to achieve sustainable results. 2021 Un viaggio alla scoperta dei grandi amori della letteratura e della vita, storie talmente incantevoli e incantate che non possono essere solo frutto della fantasia: da Abelardo ed Eloisa, un amore travagliato, ostacolato, di cui sono rimaste lunghe e appassionate lettere; a Paolo e Francesca, che ancora, nell'oltretomba, non possono e non desiderano separarsi; a Ermengarda, che tutta la vita ha amato l'uomo che l'aveva ripudiata e dimenticata; a Leopardi e la sua brama di amore. Michele Ruggiano è stato docente di Lettere e Preside nei licei e negli istituti magistrali. Per un decennio circa ha insegnato letteratura italiana e didattica generale nell'Istituto Superiore di Scienze Religiose di Benevento. È stato anche per vent'anni Presidente della sezione beneventana di Italia Nostra e, per dieci, Direttore del Centro Studi del Sannio. Ha pubblicato i seguenti lavori storico letterari: *L'infinito nella sensibilità romantica* (Ricolo ed., Benevento, 1981, pp. 59); *Leopardi, la pena di vivere* (eDimedia, Benevento, 1998, pp. 202); *Le radici cristiane nella letteratura moderna - Petrarca, Leopardi, Baudelaire* (Ed. Auxiliatrix, Benevento, 2005, pp. 119); «IL fiore del deserto», *vita e opere di Giacomo Leopardi* (Il Chiostro, Benevento, I ed. 2007, pp. 238; II ed. 2010, pp. 288); *Raccontare Leopardi* (Franco Angeli editore, Milano, 2018, pp. 275). *The Size Effect* Mar 26 2022 At the end of the last century, the so-called "new technologies"

started to question the process of design, production, sales and consumption through a radical change, which today re-defines many concepts both in industry and every-day life. The notion of "size" – a cross-cutting term in the cultural and creative sector – has gone through a phase of crisis from which it is now re-emerging, enriched with new meanings and possibilities. To redefine this complex term, the authors of the book have observed the path of audiovisual products and social media, fashion, everyday objects, architectures and cities, and identified in each of these fields elements of continuity, breaking points with the past as well as future alternatives. In this collection of essays, the authors adopt an interdisciplinary approach overcoming the boundaries of their discipline. Through different perspectives this volume presents and develops new paradigms that explain the complexities of the contemporary era and its new "sizes".

Archaeology of the Unconscious Aug 31 2022 In reconstructing the birth and development of the notion of 'unconscious', historians of ideas have heavily relied on the Freudian concept of Unbewussten, retroactively projecting the psychoanalytic unconscious over a constellation of diverse cultural experiences taking place in the eighteenth and nineteenth centuries between France and Germany. *Archaeology of the Unconscious* aims to challenge this perspective by adopting an unusual and thought-provoking viewpoint as the one offered by the Italian case from the 1770s to the immediate aftermath of WWI, when Italo Svevo's *La coscienza di Zeno* provides Italy with the first example of a 'psychoanalytic novel'. Italy's vibrant culture of the long nineteenth century, characterised by the sedimentation, circulation, intersection, and synergy of different cultural, philosophical, and literary traditions, proves itself to be a privileged object of inquiry for an archaeological study of the unconscious; a study whose object is not the alleged 'origin' of a pre-made theoretical construct, but rather the stratifications by which that

specific construct was assembled. In line with Michel Foucault's *Archéologie du savoir* (1969), this volume will analyze the formation and the circulation, across different authors and texts, of a network of ideas and discourses on interconnected themes, including dreams, memory, recollection, desire, imagination, fantasy, madness, creativity, inspiration, magnetism, and somnambulism. Alongside questioning pre-given narratives of the 'history of the unconscious', this book will employ the Italian 'difference' as a powerful perspective from whence to address the undeveloped potentialities of the pre-Freudian unconscious, beyond uniquely psychoanalytical viewpoints. *Pillole di Management di Strada* Dec 31 2019 *Histories of Dreams and Dreaming* Aug 19 2021 In the late nineteenth century, dreams became the subject of scientific study for the first time, after thousands of years of being considered a primarily spiritual phenomenon. Before Freud and the rise of psychoanalytic interpretation as the dominant mode of studying dreams, an international group of physicians, physiologists, and psychiatrists pioneered scientific models of dreaming. Collecting data from interviews, structured observation, surveys, and their own dream diaries, these scholars produced a large body of early research on the sleeping brain in the late nineteenth and early twentieth

centuries. This book uncovers an array of case studies from this overlooked period of dream scholarship. With contributors working across the disciplines of psychology, history, literature, and cultural studies, it highlights continuities and ruptures in the history of scientific inquiry into dreams.

Publisher description

Religious Life Or Secular

Institute Feb 10 2021 Many request have been made for the publication of these studies in book form. Much of this material has already appeared as articles in *The Way*. In the first section I discuss the distinction between the forms of consecrated life, following a classification which is also taken up by the Second Vatican Council in its decree *Perfectae Caritatis*. It is by distinguishing between these different ways of the Spirit, and by seeking to enter more deeply into them, that all who lead that life - whether they be monks or nuns, or religious dedicated to the apostolate of the priestly ministry or of charitable works, or those leading a consecrated life in the midst of the world - will gain a better

understanding of their vocation and of their special mission in the Church. The second study is an attempt to express the profound meaning of the secular vocation proper to those institutes which were approved by Pope Pius XII in 1947, and of which the *Motu Proprio Primo Feliciter* laid

down the essential characteristics. The third section is a discussion of the role of the priest in approved Secular Institutes. This has relevance today, when special questions arise concerning those Institutes whose secular character is less apparent, who live in community and are occupied in their own special works. In the opinion of many who follow the fully secular vocation, those Institutes would do better to revise their statutes or to choose another denomination - for example, that of Apostolic Institute or Society.

In-Vitro Fertilization Oct 28

2019 The birth of Louise Joy Brown - the world's first baby born following in-vitro fertilization - heralded a medical revolution. Forty years later, many thousands of babies are born each year following IVF. Assisted reproduction is a global industry with a multi-billion dollar turnover. It is a complex mix of science, clinical management, bioethics, and commercial imperatives. Many of the pioneers of IVF are still with us and have a fascinating tale to tell. Here, they relate the story of the development of IVF and related technologies in a way that will prove invaluable to future generations of practitioners seeking to understand the genesis of the specialty. This is not an academic history: rather it takes an informal and anecdotal approach; informing and entertaining for generations of past, present and future medical and

scientific specialists of IVF, alongside the millions of parents, who celebrated the successes of IVF treatment worldwide.

[Stardom in Cinema, Television and the Web](#) Jan 24 2022

In the last 50 years, the social importance of stars has steadily grown, to the point that stars have now become key role models who strongly influence people's behaviours. This book considers the connections between the three main media (cinema, television and the web) and each of the three phases into which the history of stardom can be divided. The first phase can largely be credited with the creation and codification of contemporary stardom, while the second is linked to the spread of television, which weakened the Hollywood stardom model and gradually transformed the figure of the star, making it more intimate and familiar. In the last of these phases, we have many 'outsiders' (personalities from a variety of professional domains and experiences) who are able to achieve considerable social visibility thanks to their skilful use of the web.

History, Medicine, and the Traditions of Renaissance

Learning Jun 04 2020 A path-breaking work at last available in paper, *History, Medicine, and the Traditions of Renaissance Learning* is Nancy G. Siraisi's examination of the intersections of medically trained authors and history

from 1450 to 1650. Rather than studying medicine and history as separate traditions, Siraisi calls attention to their mutual interaction in the rapidly changing world of Renaissance erudition. With remarkably detailed scholarship, Siraisi investigates doctors' efforts to explore the legacies handed down to them from ancient medical and anatomical writings.

Contemporary Italian Women Writers and Traces of the Fantastic Jun 24 2019 "Contemporary fantastic fiction, particularly that written by women, often challenges traditional literary practice. At the same time the predominantly male-authored canon of fantastic literature offers a problematic range of gender stereotypes for female authors to 're-write'. Fantastic tropes, of space in particular, enable three important contemporary Italian female writers (Paola Capriolo, b. 1962; Francesca Duranti, b. 1935 and Rossana Ombres, b. 1931) to encounter and counter

anxieties about writing from the female subject. All three writers begin by exploring the hermetic, fantastic space of enclosure with a critical, or troubled, eye, but eventually opt for wider national, and often international spaces, in which only a 'fantastic trace' remains. This shift mirrors their own increasingly confident distance from male-authored literary models and demonstrates the creative input that these writers bring to the literary canon, by redefining its generic boundaries."

New Italian Migrations to the United States Nov 09 2020 This second volume of *New Italian Migrations to the United States* explores the evolution of art and cultural expressions created by and about Italian immigrants and their descendants since 1945. The essays range from an Italian-language radio program that broadcast intimate messages from family members in Italy to the role of immigrant cookbook writers in crafting a fashionable Italian food culture. Other works look at how exoticized actresses like Sophia Loren and Pier Angeli helped shape a glamorous Italian style out of images of desperate postwar poverty; overlooked forms of brain drain; the connections between countries old and new in the works of Michigan self-taught artist Silvio Barile; and folk revival performer Alessandra Belloni's reinterpretation of tarantella dance and music for

Italian American women. In the Afterword, Anthony Julian Tamburri discusses the nomenclature ascribed to Italian American creative writers living in Italy and the United States.

The Changing Role of the Interpreter Jul 18 2021 This volume provides a critical examination of quality in the interpreting profession by deconstructing the complex relationship between professional norms and ethical considerations in a variety of sociocultural contexts. Over the past two decades the profession has compelled scholars and practitioners to take into account numerous factors concerning the provision and fulfilment of interpreting. Building on ideas that began to take shape during an international conference on interpreter-mediated interactions, commemorating Miriam Shlesinger, held in Rome in 2013, the book explores some of these issues by looking at the notion of quality through interpreters' self-awareness of norms at work across a variety of professional settings, contextualising norms and quality in relation to ethical behaviour in everyday practice. Contributions from top researchers in the field create a comprehensive picture of the dynamic role of the interpreter as it has evolved, with key topics revisited by the addition of new contributions from established scholars in the field, fostering discussion and further reflection on important issues in the field of interpreting. This volume will

be key reading for scholars, researchers, and graduate students in interpreting and translation studies, pragmatics, discourse analysis, and multilingualism.

Encyclopedia of Italian Literary Studies Sep 27 2019 The Encyclopedia of Italian Literary Studies is a two-volume reference book containing some 600 entries on all aspects of Italian literary culture. It includes analytical essays on authors and works, from the most important figures of Italian literature to little known authors and works that are influential to the field. The Encyclopedia is distinguished by substantial articles on critics, themes, genres, schools, historical surveys, and other topics related to the overall subject of Italian literary studies. The Encyclopedia also includes writers and subjects of contemporary interest, such as those relating to journalism, film, media, children's literature, food and vernacular literatures. Entries consist of an essay on the topic and a bibliographic portion listing works for further reading, and, in the case of entries on individuals, a brief biographical paragraph and list of works by the person. It will be useful to people without specialized knowledge of Italian literature as well as to scholars.

Migrancy and Multilingualism in World Literature Aug 07 2020 This volume, the third in a series of four on the general issue of Multilingualism in World

Literature, is focused upon the relationship between Migrancy and Multilingualism, including its aquatic, terrestrial and globalizing imagery and ideology. The cover picture Wandering Tongues, an iconic translation of the book's title, evokes one of the paradigmatic figures of migrancy and multilingualism: the migrations of the early Mexican peoples and their somatic multilingualism as represented in their glyphic scripts and iconography. The volume comprises studies on the literary, linguistic and graphic representation of various kinds of migrancy in significant works of African, American, Asian and European literature, as well as a study on the literary archetype of human errancy, the Homeric Odyssey, mapped along its periplum and metamorphosis in world literature. Ping-hui Liao is Chuan Lyu Endowed Chair Professor and Head of Cultural Studies at the Literature Department of the University of California in San Diego (USA). K. Alfons Knauth is Professor of Romance Philology at the Ruhr-Universitaet Bochum (Germany). The introduction and five of the twelve chapters are in English; the rest are in German, French, Italian, and Spanish. (Series: poethik polyglott, Vol. 3) [Subject: Literature]

'Onde Di Questo Mare' Sep 07 2020 In the half-century following Pavese's death, much that was written about him sought principally to understand and define his complex character, and to determine his place within the

twentieth-century Italian literary canon. Latterly, there appears to have been a significant shift in focus towards a closer reading of individual works or aspects or periods of his writing, the better to analyse and reveal the subtleties and depth of his vision. This present collection of ten essays conforms broadly with this tendency. It is organised chronologically with regard to Pavese's life and works so as to convey a sense of the development of a writer, over and above the particular concerns of any given essay. The book features contributions from many leading experts on Pavese. *Il sogno italiano* Jan 30 2020 Questo volume raccoglie gli atti del secondo convegno di studi sull'Italia organizzato dal Dipartimento di Italiano e Serbo dell'Università di Banja Luka e dall'AIBA (Associazione degli Italianisti nei Balcani), che si è tenuto a Banja Luka (RS/BiH) venerdì 18 e sabato 19 giugno 2010. Il tema del sogno è stato scelto sia per la sua grande valenza simbolica, psicologica, sociale e artistica, sia perché tanti sono i 'sogni' legati all'Italia, alla sua cultura, alla sua storia. I lavori qui presentati, a cui hanno contribuito studiosi provenienti da molti paesi europei ed extraeuropei, sono stati divisi in due sezioni: la prima, *The Italian Dream*, accoglie i contributi che rientrano nell'area della linguistica, della storia della lingua, della filologia e degli studi culturali, mentre la seconda, *Sogni e favole io fingo*, contiene articoli di ambito letterario, inteso nel

senso più ampio del termine. Con questo volume si inaugura anche, presso Aonia edizioni, la collana Italianistica balcanica. *Pensieri selvaggi a Buenos Aires* Nov 29 2019 "Tristi Tropici" di Claude Lévi-Strauss raccontava esplorazioni e scoperte - alla ricerca del 'pensiero selvaggio' - fra le tribù primitive e meste nel più profondo Brasile. Contrapposte ai beati lussi nelle ricche metropoli del dopoguerra, Buenos Aires e Rio de Janeiro, meta agognatissima per generazioni di emigranti nostrani: «Dagli Appennini e dalle Alpi alle Ande». I fasti argentini e brasiliani abbagliarono la povera Italia affamata e distrutta, fino al trionfo nella tournée europea della 'presidenta' Evita Perón, bella giovane e brava attrice, con una memorabile visita elegante e populista in Vaticano, e sostanziosi doni a Pio XII. Ne derivò poi il successo planetario del musical Evita. Frattanto, i libri di Lévi-Strauss diventavano classici fondamentali nella voga strutturalista. Si tradussero le opere di Jorge Luis Borges, e anche lui venne a Roma, al culmine della popolarità. E poi, tutta un'ondata di eccellente narrativa latino-americana. Ma l'economia di quei paesi andò incontro a crisi gravissime; e le racconta appunto questo viaggio di rivisitazioni in Argentina, Brasile, Uruguay,

Perù. Dove tuttavia non mancheranno sorprese: il complesso di Santa Rosa da Lima, ad esempio, si rivela «un caro nido di memorie per gli antichi cultori delle più mitiche Sante secondo quella leggendaria Compagnia D'Origlia-Palmi, o Paolo Poli. Qui tutto par rivivere, intatto. Ah, quegli indimenticati "Scignore scialvami, la carne è debole!" di Santa Rita, mentre Satana la tentava sotto forma di fantasma dell'"Amleto", ringhiando...».

Trame del Fantastico May 28 2022 Trame d'ombra, specchi oscuri, intrecci misteriosi. La materia stessa del film, pellicola trasparente e diafana sulla quale si muovono figure d'ombra, induce a pensare che la vocazione privilegiata del cinema sia nel fantastico, come già riteneva Artaud. I fantasmi, silenziose o sonore apparizioni, ci vengono incontro dallo schermo, in bianco e nero o a colori, da Nosferatu a Shutter Island: materia dei corpi come materia di sogni, incubi e visioni, portatori di maschere, generatori privilegiati di archetipi. Metafisico.

Fantastico. Film noir. Horror. Termini usuali, ma inadeguati, per certi film. In realtà qui non siamo tanto di fronte a un'inadeguatezza terminologica, che si tratterebbe di superare inventando un termine più adatto, quanto alla generale insufficienza che l'ottica dei "generi" (un'ottica di comodo) dimostra nei confronti di ogni film che investa universi di senso sufficientemente complessi, tali da mettere in gioco qualcosa che potremmo chiamare memoria filogenetica. *Literature as System* May 04 2020 Writing in the tradition of Ortega y Gasset's History as a System and Saussure's linguistic model, Claudio Guillén proposes a structural approach to literary history.
