Katie's Cabbage Apr 29 2020 Katie's Cabbage is the inspirational true story of how Katie Stagliano, a third grader from Summerville, South Carolina, grew a forty-pound cabbage in her backyard and donated it to help feed 275 people at a local soup kitchen. In her own words, Katie shares the story of the little cabbage seedling and the big ideas of generosity and service that motivated her to turn this experience into Katie's Krops, a national youth movement aimed at ending hunger one vegetable garden at a time. Katie's Cabbage reminds us of how small things can grow and thrive when nurtured with tender loving and care and of how one person, with the support of family, friends, and community, can help make a powerful difference in the lives of so many. Katie's Cabbage was illustrated by Karen Heid, associate professor of art education at the University of South Carolina School of Visual Art and Design. Editorial assistance was provided by Michelle H. Martin, a dedicated gardener and the Augusta Baker Chair in Childhood Literacy at the University of South Carolina School of Library and Information Science. Patricia Moore-Pastides, First Lady of the University of South Carolina and author of *Greek Revival from the Garden: Growing and Cooking for Life*, offers a foreword about her friendship with Katie and her admiration of Katie's dream to end hunger one garden at a time.

The Book of L Mar 09 2021 This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

The End of Chiraq Apr 10 2021 The End of Chiraq: A Literary Mixtape is a collection of poems, rap lyrics, short stories, essays, interviews, and artwork about Chicago, the city that came to be known as "Chiraq" ("Chicago" + "Iraq"), and the people who live in its vibrant and occasionally violent neighborhoods. Tuned to the work of Chicago's youth, especially the emerging artists and activists surrounding Young Chicago Authors, this literary mixtape unpacks the meanings of "Chiraq" as both a vexed term and a space of possibility. "Chiraq" has come to connote the violence—interpersonal and structural—that many Chicago youth regularly experience. But the contributors to The End of Chiraq show that Chicago is much more than Chiraq. Instead, they demonstrate how young people are thinking and mobilizing, engaged in a process of creating a new and safer world for themselves, their communities, and their city. In true mixtape fashion, the book is an exercise in "low end theory" that does not just include so-called underground and marginal voices, but foregrounds them. Edited by award-winning poets, writers, and teachers Javon Johnson and Kevin Coval, The End of

Chiraq addresses head-on the troublesome relationship between Chicago and Chiraq and envisions a future in which both might be transformed.

Plain Roots Jan 07 2021 Taryn Clark thought she'd outgrown the need to find her birth mother. She thought that a successful career and a comfortable life in the city were enough to be happy. Did she really need to know about the woman who had given her away? Adopted at birth, her first few years were happy. It hadn't mattered that she didn't know her heritage; she had parents who loved her and wanted her. But divorce, and then death, ripped their tiny family apart, and at the tender age of six, she entered the foster care system. Over the next dozen years, she shuffled from home to home. Finding her roots seemed an impossible dream. But dreams are resilient. An unexpected discovery awakens old yearnings of belonging to a family, of being part of something bigger than herself. Finding the brief, ambiguous note from her birth mother is enough to unfurl the ribbons of hope still

binding her heart. Her quest takes her to Lancaster County, Pennsylvania and the heart of the Plain community. Aided by her unique eye color, a healthy dose of luck, and the private investigator she hires, Taryn finds her birth family easily enough, but finding the truth is another matter. In all her musings, she never imagined a scenario where her mother might be Amish. She never imagined that the fabric of her life might be a patchwork of faith and fear, stitched together with a dark family secret. Taryn is determined to trace her roots, even if it means digging in the mud to do so. Now she's caught in the quicksand of a shocking discovery and the consequences of choices made, almost forty years ago. She'll risk everything to uncover the truth and to claim the family--and the roots--she so desperately craves.

Speeches of Note May 23 2022 From the author of the New York Times bestseller Letters of Note comes a collection of 75 of history's most interesting, profound, and sometimes unknown speeches from a range of scintillating personalities such as Frederick Douglass, Justin Trudeau, Albert Einstein, Meghan Markle, Barbara Jordan, and Ursula K. Le Guin. This thoughtfully curated and richly illustrated collection celebrates oratory old and new, highlighting speeches we know and admire, while also shining a light on profound drafts that were never delivered or have until now been forgotten. From George Bernard Shaw's warm and rousing toast to Albert Einstein in 1930 and the commencement address

affectionately given to graduates at Long Island University by Kermit the Frog, to the chilling public announcement (that was thankfully never made) by President Richard Nixon should Neil Armstrong and Buzz Aldrin become stranded on the moon, *Speeches of Note* honors the words and ideas of some of history's most provocative and inspiring personages. *Slave Stealers* Jul 25 2022 Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother's house for seven years before escaping north to freedom. She published an autobiography of her life, *Incidents in the Life of a Slave Girl*, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--The "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.

Delilah Devlin's *Cowboy Lust* was a sensation, hitting the top ten of romance books and generating a river of praise. Award-winning Devlin is back on the ranch with stories of rugged romantics, rough riders, and rope wranglers sure to satisfy any reader who craves the idea of that gruff, romantic hero, a man of few words but many moves. *Cowboy Heat* sits tall in the saddle, winning hearts and spurring readers to new heights of happiness.
