Farm Animal Transport Jul 31 2022 Most of the 70 billion animals that are farmed in the world are transported at least once in their lives. For improved animal welfare, sustainability, and profitability it is important that everyone involved in the transportation process takes responsibility for doing a good job. This may require legislation and assurance schemes backed up by inspections and driven by consumer awareness and demand. All aspects of the transportation process, including preparation for transport, handling during loading and unloading, handler and driver training, stocking density on the transport container, journey length, and weather have an effect on animal welfare, meat quality, health after transport, and even mortality during transit. These topics are covered in the papers and reviews in this book together with related aspects such as consumer perceptions of animal transport, cleaning of transport coops, and consideration of on-farm slaughter to obviate the need for transport to an abattoir. The book adds to the knowledge of farm animal transport and highlights areas for future research and improved practice.

Entrepreneurial Marketing Aug 27 2019 How do you sell an innovative product to a market that does not yet exist? Entrepreneurial businesses often create products and services based on radically new technology that have the power to change the marketplace. Existing market research data will be largely irrelevant in these cases, making sales and marketing of innovative new products especially challenging to entrepreneurs. *Entrepreneurial Marketing* focuses on this challenge. Classic core marketing concepts, such as segmentation, positioning and the marketing mix undergo an 'extreme makeover' in the context of innovative products hitting the market. Edwin J. Nijssen stresses principles of affordable loss, experimentation and adjustment for emerging opportunities, as well as cooperation with first customers. Containing many marketing examples of successful and cutting edge innovations (including links to websites and videos on the Internet), useful lists of key issues and instructions on how to make a one-page marketing plan, *Entrepreneurial Marketing: An Effectual Approach* provides a vital guide to successfully developing customer demand and a market for innovative new products. This second edition has been thoroughly expanded with: a one-page marketing plan which now focuses on the three entrepreneurial challenges that can be easily adapted; coverage of the customer development process; and updated references and new examples. This book provides students and entrepreneurs with the fundamental tools to succeed in marketing.

A Girl in Black and White Feb 11 2021 My once upon a time didn't end with happily ever after-but with blood-stained hands and cold blue eyes. The story of my life had been laid beneath my feet since childhood, but until death, I'd never known that road was paved with stones called lies. In this city of sun and heat, cloaked in dark, both inside and out, I became somebody other than Farm Girl. There was no assassin behind my back. No, my shackles were just as

tight but came in a different form. Like Death's icy fingers running down my spine, the ones that had gripped me for months, my past haunted my present in the guise of nostalgia. My old chains still left marks on my skin, their owner's gaze following behind. But he didn't know I lived. He didn't know I was so close, that I heard his name spoken every day. That I still hated him. Until my hate started tasting suspiciously different. One mistake and everything I'd created unraveled. A liar. Corruptor. He stood in front of me now. The air was heavy with expectation, tense with the possibilities of how this would unfold, of what he would do. But there was always two sides to every story, and maybe in this version, the corruptor wasn't him, but me.
