The Gold Star Buyer's Companion Jan 31 2020 This buyer's guide for the classic BSA Gold Star covers the complete range of production from the original 1938 Model M24 through post-WWII models ZB, BB, CB, DB and DBD. It is organized for potential Gold Star buyers to use when inspecting one of these highly desirable machines for possible purchase. Significantly expanded from the previous edition, it includes specialized information and photographs necessary to avoid paying Gold Star prices for the similar-looking B32/B34 and Alloy Clipper "competition models," or purchasing dubious components such as renumbered engines and counterfeit RRT2 gearboxes. The information also will be invaluable for restorers as well as people generally interested in the history of these machines. One chapter is devoted to the 1957 Spitfire Scrambler, a little-known hybrid produced only that year consisting of a twin-cylinder 650 cc engine in Gold Star cycle parts, predating the Rocket Gold Star by five years. The main body of the 4th edition was 21 pages, with 16 figures and 11 tables. The main body of the 5th edition has more than doubled to 50 pages and now has 44 figures and 17 tables containing information on the proper speedometers, tachometers, gearboxes, carburetors, etc., and cover all models, including Clubman, Catalina Scrambler, Road Racer, Dirt Tracker, and Competition 'All Sports'. Sixty-four pages of color advertisements and images from rare sales brochures and magazines contain information for all years of this machine, from a pre-production 1937 description of expected specifications, to a listing in a 1964 sales brochure issued a year after the last Gold Star was manufactured (not covered are the B25/B50 machines that were given the name in 1971-72). For the restorer or rebuilder, a very useful "reverse parts list" specially created for this book has DBD part numbers sorted in numerical order, enabling part numbers to be quickly identified and associated with the corresponding figures in the BSA parts manual. If you ever might want to buy, restore, or rebuild a Gold Star, the information in this book can save you considerable time as well as keep you from making some very costly mistakes. CHAPTERS: 1. Who Should Buy This Book? 2. Mini-History of the Gold Star 3. U.S. Gold Star Models 4. Current (2015) Selling Prices 5. Cost of Restoration 6. Major Features to Check 7. B32, B32A, B34 and B34A Competition and Alloy Clipper 8. Aftermarket Accessories 9. Summary--Checklist of a Few Important Points 10. Procedure for Starting a Gold Star 11. 1957 Spitfire Scrambler 12. Sources of Additional Information 13. Useful Addresses 14. Selected Material from Advertisements and Sales Brochures 15. Figures from DBD Gold Star Parts Manual (Catalogue No. 00-5076) 16. Part Numbers (in numerical order) from DBD Gold Star Parts Manual REVIEWS of the 4th Edition: "Buying a Goldie? Buy This First." (Classic Bike); "...it stands as an ultimate Gold Star buyer's resource." (Classic Bike Guide); "...a mine of useful information (so) there's no excuse for not knowing what you need to know." (Classic Motorcycle Mechanics); "It is the outstanding book on Goldies." (Walneck's Classic Cycle Trader); "a

must-have book for Gold Star fans... like an owner's manual on steroids..." (Cafe Racer).

When she started blogging about her cycle adventures under the alias Lady Vélo, a whole world was opened up to her. But it's hard to find space in an industry not traditionally open to women - especially women of colour. Shortly after getting back on two wheels, Jools was diagnosed with depression and then, in her early thirties, hit by a mini-stroke. Yet, through all of these punctures, one constant remained: Jools' love of cycling. Funny, moving and motivational, this book tells the story of how Jools overcame these challenges, stepped outside her comfort zone and learned to cycle her own path. Along the way she shares a wealth of inspirational stories and tips from other female trailblazers, and shows how cycling can and should be a space for everyone. A celebration of cycling, Back in the Frame will motivate you to get back on your bike and enjoy the ride, no matter what life throws at you.

**Mind is the Ride** Aug 27 2019 When Jet McDonald cycled four thousand miles to India and back, he didn't want to write a straightforward travel book. He wanted to go on an imaginative journey. Mind is the Ride takes the reader on a physical and intellectual adventure from West to East using the components of a bike as a metaphor for philosophy, which is woven into the cyclist's experience. Each chapter is based around a single component, and as Jet travels he adds new parts and new philosophies until the bike is 'built'; the ride to India is completed; and the relationship between mind, body and bicycle made apparent. The age of the travelogue is over: today we need to travel inwardly to see the world with fresh eyes. Mind is the Ride is that journey, a pedal-powered antidote to the petrol-driven philosophies of the past.

*BSA 500 & 650 Twins* Oct 22 2021 Sometimes living under the shadow of the flashier, high-profile Triumph Twins, the equivalent BSAs were just as numerous and were exported all over the world. BSA was often seen as a less glamorous marque than Triumph or Norton, associated more with commuting and sidecars than coffee bar cowboys, but that doesn't detract from the collectibility of its models today, as the bikes have become highly usable, enjoyable classics. Unlike the many marque histories available, this book is a practical guide to buying one of these bikes. It covers the complete range, from the very first 1946 500cc A7 to the final 1973 650cc A65s. Chapters include what to look for (10min and 30min evaluations); spares prices; guides to auctions and paperwork; lists of useful contacts in the BSA community; and just as important, consideration of whether it's the right bike for you. One hundred colour photos, useful appendices and expert advice mean this book could save you thousands.
