Pinion Jul 31 2022 "The delight is in what's seen en route, as Lake has configured his world-dominating empires, one British, the other Chinese, with huge and devoted attention to the last detail. The delight of the next volume--

prefigured with unrelenting clarity in Escapement's final pages--should be the discovery that the destination adds up." -- Washington Post Book World on Escapement Rejoin the Librarian and the Chinese submarine captain, the British sailor, the clockwork man, and the young sorceress who has gone south of the great

equatorial wall. This adventure in Lake's Clockwork Earth continues the tale begun in *Escapement*. "The very cosmology of this world is an enigmatic astonishment, and it underpins every single bit of action and character....Lake has a ball transporting his characters up and down this magnificent world, subjecting them to all sorts of perils and escapes in a wild variety of settings. His three main protagonists all exhibit distinct and memorable personalities that allow us to filter their world through three prisms of intelligence and attitude....Fantasy has always been "escapist" in the best sense of the word, and Lake engineers a fine tale of humans in search of liberation from the clockwork and customs that ensnare them and us as well." - *-Sci-Fi Weekly on Escapement* At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Pinion Oct 02 2022 In this eloquent long poem, Claudia Emerson employs the voices of two family members on a small southern farm to examine the universal complexities of place, generation, memory, and identity. Alternating between the voices of Preacher and Sister, Pinion is narrated by the younger, surviving sister, Rose,

in whose memory the now-gone family and farm vividly live on: "In the dream that recurs, like a bird returning, the place is still as it was—as though they went away, years ago, fully intending to be back by first dark." Sister tells of her observances in day-to-day life in the 1920s and her struggle to take care of her father, grown brothers, and Rose—"the change-of-life baby"—after the death of her mother: "The hens had hidden their heads beneath / their wings; they blinded themselves as I dusted / the kneading bowl with flour sifted fine as silk, and so / I disappeared as I sank my fists into it." Preacher feels keenly the burden of running the farm and fears being the last one to live on the place: "I was held fast there, pinioned, not / dying, growing numb and light, wait-crazed / and finally calm." Both wrestle with a desire for independence and the duty to home they are bound to by birth; neither marries or leaves. Pinion is ultimately a wrenching elegy that Rose creates. She is the one who escaped, only to realize "I survive them all, but I find I have become the house they keep."

Wheel and Pinion Cutting in Horology Nov 03 2022 Many clock repairers carry out excellent work but avoid cutting their own wheels and pinions, fearing it is too

complicated and involved. This book, written by an experienced clock and tool maker, dispels those fears and gives a step-by-step guide to an extremely satisfying aspect of horology. This book is written for both the amateur and professional involved in the making and restoring of clocks, and for anyone who intends to start building up a workshop and requires a guide to the equipment and how to use it.
