[Chaos Umpire Sits](#) Nov 03 2022 The tower is fallen, its residents scattered or dead. A mob of human refugees swarm the city, tossed into a world they haven't seen in years, and one Jana knows only from distant memories as a child. The ones who tore down her home would have her flee to safety, and to abandon her need to find Rhamiel and know what became of him. But the strike against the angels has returned them to their martial ways, and an army is reforming under the banner of Uzziel with the goal of eliminating any threats to the Seraphim forever. And other castes of angels have agendas of their own, eager to fill the vacuum left by the tower's collapse.

Paradise Lost and the Cosmological Revolution Aug 20 2021 This volume brings John Milton's Paradise Lost into dialogue with the challenges of cosmology and the world of Galileo, whom Milton met and admired: a universe encompassing space travel, an earth that participates vibrantly in the cosmic dance, and stars that are "world[s] / Of destined habitation." Milton's bold depiction of our universe as merely a small part of a larger multiverse allows the removal of hell from the center of the earth to a location in the primordial abyss. In this wide-ranging work, Dennis Danielson lucidly unfolds early modern cosmological debates, engaging not only Galileo but also Copernicus, Tycho, Kepler, and the English Copernicans, thus placing Milton at a rich crossroads of epic poetry and the history of science.
