The Psychology of Religion and Place May 28 2022 This book examines the role of religious and spiritual experiences in people's understanding of their environment. The contributors consider how understandings and experiences of religious and place connections are motivated by the need to seek and maintain contact with perceptual objects, so as to form meaningful relationship experiences. The volume is one of the first scholarly attempts to discuss the psychological links between place and religious experiences. The chapters within provide insights for understanding how people's experiences with geographical places and the sacred serve as agencies for meaning-making, pro-social behaviour, and psychological adjustment in everyday life.

Mere Christianity Nov 02 2022 In the classic *Mere Christianity*, C.S. Lewis, the most important writer of the 20th century, explores the common ground upon which all of those of Christian faith stand together. Bringing together Lewis' legendary broadcast talks during World War Two from his three previous books *The Case for Christianity*, *Christian Behavior*, and *Beyond Personality*, *Mere Christianity* provides an unequalled opportunity for believers and nonbelievers alike to hear this powerful apologetic for the Christian faith.

Roman Stoicism Jul 30 2022 Originally published in 1911, this book takes the broad view of Stoicism as the bridge between ancient and modern philosophical thought.

Machiavelli, Hobbes, and Rousseau Jun 16 2021 This volume presents lucid and insightful lectures on three great figures from the history of political thought, by John Plamenatz (1912-1975), a leading political philosopher of his time. He explores a range of themes in the political thought of Machiavelli, Hobbes, and Rousseau, at substantially greater length and depth than in his famous work of 1961, *Man and Society*. The lectures exemplify Plamenatz's view that repeated engagement with the texts of canonical thinkers can substantially enrich and expand our

capacity for political reflection. Edited by Mark Philp and Zbigniew Pelczynski, the volume includes annotations to supply Plamenatz's sources and to refer readers to developments in their interpretation. A substantial introduction by Philp sets some of Plamenatz's concerns in the light of trends in recent scholarship, and illuminates the relevance of his work to the contemporary study of political thought.

Introduction to the Historical Books Feb 22 2022 Steven McKenzie here surveys the historical books of the Old Testament Joshua through Ezra-Nehemiah for their historical context, contents, form, and themes, communicating them clearly and succinctly for an introductory audience.

/ By providing a better understanding of biblical history writing in its ancient context, McKenzie helps readers come to terms with tensions between the Bible's account and modern historical analyses. Rather than denying the results of historical research or dismissing its practitioners as wrongly motivated, he suggests that the source of the perceived discrepancy may lie not with the Bible but with the way in which it has been read. He also calls into question whether the genre of the Bible's historical books has been properly understood.

Facing West Aug 19 2021 "The dramatic growth of Christianity around the world in the last century has shifted the balance of power within the faith away from the traditional strongholds of Europe and the United States to the Global South. While we typically imagine Western missionaries carrying religion to the ends of the earth, David R. Swartz shows that the line of influence has often run the other way, as evangelicals in nations such as Korea, India, and Uganda shaped the American church from abroad. Swartz tells stories of evangelicals crossing national boundaries, offering new insights into a tradition that imagines itself as simultaneously American and part of a global communion"--

Spirit in Session Jun 04 2020 Spirituality is an important part of many clients' lives. It can be a resource for stabilization, healing, and growth. It can also be the cause of struggle and even harm. More and more therapists—those who consider themselves spiritual and those who do not—recognize the value of addressing spirituality in therapy and increasing their skill for engaging it ethically and effectively. In this

immensely practical book, Russell Siler Jones helps therapists feel more competent and confident about having spiritual conversations with clients. With a refreshing, down-to-earth style, he describes how to recognize the diverse explicit and implicit ways spirituality can appear in psychotherapy, how to assess the impact spirituality is having on clients, how to make interventions to maximize its healthy impact and lessen its unhealthy impact, and how therapists can draw upon their own spirituality in ethical and skillful ways. He includes extended case studies and clinical dialogue so readers can hear how spirituality becomes part of case conceptualization and what spiritual conversation actually sounds like in psychotherapy. Jones has been a therapist for nearly 30 years and has trained therapists in the use of spirituality for over a decade. He writes about a complex topic with an elegant simplicity and provides how-to advice in a way that encourages therapists to find their own way to apply it. *Spirit in Session* is a pragmatic guide that therapists will turn to again and again as they engage their clients in one of the most meaningful and consequential dimensions of human experience.

Global Change and Forest Soils Sep 19 2021 *Global Change and Forest Soils: Cultivating Stewardship of a Finite Natural Resource*, Volume 36, provides a state-of-the-science summary and synthesis of global forest soils that identifies concerns, issues and opportunities for

soil adaptation and mitigation as external pressures from global changes arise. Where, how and why some soils are resilient to global change while others are at risk is explored, as are upcoming train wrecks and success stories across boreal, temperate, and tropical forests. Each chapter offers multiple sections written by leading soil scientists who comment on wildfires, climate change and forest harvesting effects, while also introducing examples of current global issues. Readers will find this book to be an integrated, up-to-date assessment on global forest soils. Presents sections on boreal, temperate and tropical soils for a diverse audience Serves as an important reference source for anyone interested in both a big-picture assessment of global soil issues and an in-depth examination of specific environmental topics Provides a unique synthesis of forest soils and their collective ability to respond to global change Offers chapters written by leading soil scientists Prepares readers to meet the daily challenges of drafting multi-resource environmental science and policy documents

Une légère idée de 2045 Jun 28 2022 *La France du milieu du vingt et unième siècle. Un couple de trentenaires, Boniface Martin et Aglaé. Elle s'interroge beaucoup sur l'avenir, leur santé, leurs sentiments. Lui souffre d'une société trop uniformisée et d'un travail dans lequel il peine à s'épanouir. Entre deux propositions d'emploi alléchantes et une secte religieuse, il va voir son destin basculer... Sciences et croyances, modernité et spiritualité. Humanisme et individualisme. Mondialisation et extrémisme religieux. Réflexion à hauteur d'homme autour d'un monde tentaculaire, cette chronique d'anticipation réaliste et corrosive fuit le spectaculaire pour nous plonger dans une vision quasi documentaire d'un avenir possible de l'humanité, osant les réponses de demain aux questions d'aujourd'hui.*
