[Gypsy Music](#) Jan 25 2022 Gypsies have for centuries been simultaneously vilified and romanticized—associated with criminality and dirt, but at the same time with color, magic, and music. Gypsy music is popular around the world and often performed with gusto at major events, including at weddings in Bulgaria, jazz bars in Paris, and festivals in the United States. In [Gypsy Music](#), Alan Ashton-Smith explores why this music has such wide appeal, surveying the varied styles that are considered to be gypsy music and asking what links them together. The book begins in the Balkans, home to the world's largest Romani populations and a major site of gypsy music production. But just as the traditionally nomadic Roma have traveled globally, so has their music. Gypsy music styles have roots and associations outside of the Balkans, including Russian Romani guitar music, flamenco and gypsy jazz, and the more recent forms of gypsy punk and Balkan beats. Covering the thirteenth century to the present day, and with a geographical scope that ranges from rural Romania to New York by way of Budapest, Moscow, and Andalusia, [Gypsy Music](#) reveals the remarkable diversity of this exuberant art form.

[Soundtrack Available](#) Aug 08 2020 From the silent era to the present day, popular music has been a key component of the film experience. Yet there has been little serious writing on film soundtracks that feature popular music. [Soundtrack Available](#) fills this gap, as its contributors provide detailed analyses of individual films as well as historical overviews of genres, styles of music, and approaches to film scoring. With a cross-cultural emphasis, the contributors focus on movies that use popular songs from a variety of genres, including country, bubble-gum pop, disco, classical, jazz, swing, French cabaret, and showtunes. The films discussed range from silents to musicals, from dramatic and avant-garde films to documentaries in India, France, England, Australia, and the United States. The essays examine both "nondiegetic" music in film—the score playing outside the story space, unheard by the characters, but no less a part of the scene from the perspective of the audience—and "diegetic" music—music incorporated into the shared reality of the story and the audience. They include analyses of music written and performed for films, as well as the now common practice of scoring a film with pre-existing songs. By exploring in detail how musical patterns and structures relate to filmic patterns of narration, character, editing, framing, and mise-en-scene, this volume demonstrates that pop music is a crucial element in the film experience. It also analyzes the life of the soundtrack apart from the film, tracing how popular music circulates and acquires new meanings when it becomes an official soundtrack. Contributors. [Ain't But a Few of Us](#) Jan 31 2020 Despite the fact that most of jazz's major innovators and performers have been African American, the overwhelming majority of jazz journalists, critics, and authors have been and continue to be white men. No major mainstream jazz publication has ever had a black editor or publisher. [Ain't But a Few of Us](#) presents over two dozen candid dialogues with black jazz critics and journalists ranging from Greg Tate, Farah Jasmine Griffin, and Robin D. G. Kelley to Tammy Kernodle, Ron Welburn, and John Murph. They discuss the obstacles to access for black jazz journalists, outline how they contend with the world of jazz writing dominated by white men, and point out that these racial disparities are not confined to jazz but hamper their efforts at writing about other music genres as well. [Ain't But a Few of Us](#) also includes an anthology section, which reprints classic essays and articles from black writers and musicians such as LeRoi Jones, Archie Shepp, A. B. Spellman, and Herbie Nichols. [The Rumble in the Jungle](#) Oct 10 2020 The 1974 fight between Muhammad Ali and George Foreman, staged in the young nation of Zaire and dubbed the Rumble in the Jungle, was arguably the biggest sporting event of the twentieth century. The bout between an ascendant undefeated champ and an outspoken master trying to reclaim the throne was a true multimedia spectacle. A three-day festival of international music—featuring James Brown, Miriam Makeba, and many others—preceded the fight itself, which was viewed by a record-breaking one billion people worldwide. Lewis A. Erenberg's new book provides a global perspective on this singular match, not only detailing

the titular fight but also locating it at the center of the cultural dramas of the day. *The Rumble in the Jungle* orbits around Ali and Foreman, placing them at the convergence of the American Civil Rights movement and the Great Society, the rise of Islamic and African liberation efforts, and the ongoing quest to cast off the shackles of colonialism. With his far-reaching take on sports, music, marketing, and mass communications, Erenberg shows how one boxing match became nothing less than a turning point in 1970s culture.

Intents and Purposes May 17 2021 How do we define improvised music? What is the relationship of highly improvised performances to the work they are performances of? How do we decide what are the important parts of an improvised musical work? In *Intents and Purposes*, Eric Lewis uses a series of case studies to challenge assumptions about what defines a musical work and musical performance, seeking to go beyond philosophical and aesthetic templates from Western classical music to foreground the distinctive practices and aesthetics of jazz. Pushing aside the assumption that composition and improvisation are different (or even opposed) musical practices, Lewis's philosophically informed approach revisits key topics in musical ontology, such as how to define the triangle of composer-performer-listener, and the status of live performances in relation to scores and recordings. Drawing on critical race theory, feminist theory, new musicology, sociology, cognitive science, and genre theory, Lewis opens up new questions about agency in performance, as well as new ways of considering the historical relationships between improvisational practices with roots in different cultural frameworks. By showing how jazz can be both art, idea, and action all at the same time, Lewis offers a new way of seeing any improvised musical performance in a new culturally and aesthetically rich context.

Playing Jazz in Socialist Vietnam Nov 03 2022 Shortlisted for the EuroSEAS Humanities Book Prize 2022 Quynh Van Minh (b. 1954) is not only a jazz saxophonist and lecturer at the prestigious Vietnam National Academy of Music, but he is also one of the most preeminent jazz musicians in Vietnam. Considered a pioneer in the country, Minh is often publicly recognized as the "godfather of Vietnamese jazz." *Playing Jazz in Socialist Vietnam* tells the story of the music as it intertwined with Minh's own narrative. Stan BH Tan-Tangbau details Minh's life story, telling how Minh pioneered jazz as an original genre even while navigating the trials and tribulations of a fervent socialist revolution, of the ideological battle that was the Cold War, of Vietnam's war against the United States, and of the political changes during the Đổi Mới period between the mid-1980s and the 1990s. Minh worked tirelessly and delivered two breakthrough solo recitals in 1988 and 1989, marking the first time jazz was performed in the public sphere in the socialist state. To gain jazz acceptance as a mainstream musical art form, Minh founded Minh Jazz Club. With the release of his debut album of original compositions in 2000, Minh shaped the nascent genre of Vietnamese jazz. Minh's endeavors kickstarted the momentum, from his performing jazz in public, teaching jazz both formally and informally, and contributing to the shaping of an original Vietnamese voice to stand out among the many styles in the jazz world. Most importantly, Minh generated a public space for musicians to play and for the Vietnamese to listen. His work eventually helped to gain jazz the credibility necessary at the national conservatoire to offer instruction in a professional music education program.

Remixing European Jazz Culture Apr 27 2022 *Remixing European Jazz Culture* examines a jazz culture that emerged in the 1990s in cosmopolitan cities like Amsterdam, Rotterdam, Berlin, London, and Oslo - energised by the introduction of studio technologies into the live performance space, which has since developed into internationally recognised, eclectic, hybrid jazz styles. This book explores these oft-overlooked musicians and their forms that have nonetheless expanded the plane of jazz's continued prosperity, popularity, and revitalisation in the twenty-first century - one where remix is no longer the sole domain of studio producers. Seeking to update the orthodoxies of the field of jazz studies, *Remixing European Jazz Culture*: incorporates electronic and digital performance, recording, and distribution practices that have transformed the culture since the 1980s; provides a more diverse and multifaceted cultural representation of European jazz and the contributions of a variety of performers; and offers an encompassing picture of the depth of jazz practice that has erupted through Northern Europe since 1989. With an expansion of international networks and a disintegration of artistic boundaries, the collaborative, performative, and real-time improvisational process of remixing has stimulated a merging of the music's past and present within European jazz culture.

Of Fret Rattle & Underwater Skylabs Jun 25 2019 From Fret Rattle to Underwater Skylabs collects seventeen of W. C. Bamberger's essays on music and musicians. The emphasis here is on the underappreciated and overlooked. Subjects range from acoustic blues musicians in the 1920s to contemporary ensembles that include improvising, electro-acoustic robots. Readers will also encounter a blind protest singer, a Turkish violinist, a Marxist radio host who is the world's leaping Zappologist, South African jazz musicians who fled apartheid, a Canadian composer who incorporates Inuit throat singing into his orchestral compositions, and a poet turned art song stylist, among others. The longest essay here, "A Trash Aleph," is a fresh look at the mystique of Bob Dylan's "Basement Tapes" songs--which, Bamberger believes, Dylan wrote specifically to NOT make money, but rather in the hope that they would be dismissed as rubbish; the critic explains why this failed to happen as Dylan intended. As always, the author provides interesting commentary based on a lifetime of enjoyment and analysis. Complete with an index. The Woodstock Series: Popular Music of Today, Vol. 4.

Taken together, these essays and the provocative introduction that precedes them are testament to the legacy work that has come to define a field, as well as a rousing call to readers to continue to ask the hard questions and write the hard truths.

The Community of the Weak May 05 2020 Social postmodernism and systematic theology can be considered the new pair in some of the most creative discussions on the future of the theological method on a global scale. Both in the academy and in the public square, as well as in the manifold local and pastoral moments of ministry and community social activism, the social, the postmodern, and the theological intermingle in engaging and border-crossing ways. The Community of the Weak presents a new kind of jazzy fundamental theology with a postmodern touch, using jazz as a metaphor, writing ethnographically messy texts out of the personal windows of lived experiences, combining fragments of autobiography with theological reconstruction. A comparative perspective on North American and European developments in contemporary systematic theology serves as a hermeneutical horizon to juxtapose two continents in their very different contexts. The author proposes a systematic and fundamental theology that is more jazzy, global, and narrative, deeply embedded in pastoral ministry to tell its postmodern story.

Jazz on the Line Dec 12 2020 Jazz on the Line: Improvisation in Practice presents an ethnographic reflection on improvisation as performance, examining how musicians think and act when negotiating improvisational frameworks. This multidisciplinary discussion—guided by a focus on recordings, composition, authenticity, and venues—explores the musical choices made by performers, emphasizing how these choices can be logically understood within the context of controlled, musical outputs. Throughout the text, the author engages directly with musicians and their varied practices—from canonized dogmas to innovative experimentalism—offering interviews both planned and spontaneous. Musical agency is posited as a tightrope balancing act, signifying the skill and excitement of improvisational performativity and exemplifying the life of a jazz realist. With a travel journal approach as a backdrop, Jazz on the Line provides concepts and theories that demystify the creative processes of improvisation.

Zoological Surrealism Aug 27 2019 An archive-based, in-depth analysis of the surreal nature and science movies of the pioneering French filmmaker Jean Painlevé Before Jacques-Yves Cousteau, there was Jean Painlevé, a pioneering French scientific and nature filmmaker with a Surrealist's eye. Creator of more than two hundred films, his studies of strange animal worlds doubled as critical reimagination of humanity. With an unerring eye for the uncanny and unexpected, Painlevé and his assistant Geneviève Hamon captured oneiric octopuses, metamorphic crustaceans, erotic seahorses, mythic vampire bats, and insatiable predatory insects. Zoological Surrealism draws from Painlevé's early oeuvre to rethink the entangled histories of cinema, Surrealism, and scientific research in interwar France. Delving deeply into Painlevé's archive, James Leo Cahill develops an account of "cinema's Copernican vocation"—how it was used to forge new scientific discoveries while also displacing and critiquing anthropocentric viewpoints. From Painlevé's engagements with Sergei Eisenstein, Georges Franju, and competing Surrealists to the historiographical dimensions of Jean Vigo's concept of social cinema, Zoological Surrealism taps never-before-examined sources to offer a completely original perspective on a cutting-edge filmmaker. The first extensive English-language study of Painlevé's early films and their contexts, it adds important new insight to our understanding of film while also contributing to contemporary investigations of the increasingly surreal landscapes of climate change and ecological emergency.

Most of the ideas and techniques can be achieved without reading music at all, although the information is there for those who can.
