The Blind Accordionist Mar 30 2020 A supposedly long lost collection of fable-like stories supposedly written by the little-known middle European writer Maxim Guyavitch ... with a helpful intro and afterword making it hilariously clear that the keyword is "supposedly." In the novel WHO'S WHO WHEN EVERYONE IS SOMEONE ELSE, the character "C.D. Rose" (not to be confused with the author C.D. Rose) searches an unnamed middle-European city for the long-lost manuscript of a little-known writer named Maxim Guyavitch. That search was fruitless, but in THE BLIND ACCORDIONIST, "C.D. Rose" has found the manuscript--nine sparkling, fable-like short stories--and he presents them here with an (hilarious) introduction explaining the discovery, and an afterword providing (hilarious) critical commentary on the stories, and what they might reveal about the mysterious Guyavitch. THE BLIND ACCORDIONIST is another masterful book of world-making by the real C.D. Rose, absorbing in its mix of intelligence and light-heartedness, and its ultimate celebration of literature itself. It is the third novel in the series about "C.D. Rose," although the reader does not need to have read the previous two books. (The first in the series was THE BIOGRAPHICAL DICTIONARY OF LITERARY FAILURE, containing portraits of unsuccessful writers; the second was WHO'S WHO WHEN EVERYONE IS SOMEONE ELSE, in which the author of the DICTIONARY, "C.D. Rose," searches for the manuscript of his favorite dead writer, Maxim Guyavitch, while on a book tour for the DICTIONARY.) Like those books, THE BLIND ACCORDIONIST can be read both as a simple but wonderful collection of quirky stories, and as comedy--or as a beautiful and moving elegy on the nobility of writers wanting to be read.

The Blind Man Mar 10 2021 The Blind Man: A Phantasmography examines the complicated forces of perception, imagination, and phantasms of encounter in the contemporary world. In considering photographs he took while he was traveling in France, anthropologist and writer Robert Desjarlais reflects on a few pictures that show the features of a man, apparently blind, who begs for money at a religious site in Paris, frequented by tourists. In perceiving this stranger and the images his appearance projects, he begins to imagine what this man's life is like and how he perceives the world around him. Written in journal form, the book narrates Desjarlais's pursuit of the man portrayed in the photographs. He travels to Paris and tries to meet with him. Eventually, Desjarlais becomes unsure as to what he sees, hears, or remembers. Through these interpretive dilemmas he senses the complexities of perception, where all is multiple, shifting, spectral, a surge of phantasms in which the actual and the imagined are endlessly blurred and intertwined. His mind shifts from thinking about photographs and images to being fixed on the visceral force of apparitions. His own vision is affected in a troubling way. Composed of an intricate weave of text and image, The Blind Man attends to pressing issues in contemporary life: the fraught dimensions of photographic capture; encounters with others and alterity; the politics of looking; media images of violence and abjection; and the nature of fantasy and imaginative construal. Through a wide-ranging inquiry into histories of imagination, Desjarlais inscribes the need for a "phantasmography"--a writing of phantasms, a graphic inscription of the flows and currents of fantasy and fabulation.

The Blind Watch Aug 03 2020 The Blind Watch has a twofold purpose. Firstly, it aims to expose some of the salient inadequacies and fallacies of modern atheism. Secondly, and more fundamentally, it is intended to expand our thinking about nature in general and about the meaning of nature for a Christian understanding of human beings. For systematic reasons, the book focuses on Richard Dawkins' *The Blind Watchmaker*, which has become a classic on modern atheism. In contrast to Dawkins' work, the present book describes the watch, i.e. the atheistic scientist, not the watchmaker, as *Blind*, insofar as the scientist calculates everything, but sees very little. By confronting the atheism of Dawkins with the philosophical (Heraclitus and the Stoics) and the theological (the Apostle Paul and Augustine) traditions, the book develops a fundamental understanding of nature as nature that leads to a definition of life quite different from that of the evolutionary biologists.

Perkins School for the Blind Apr 11 2021 Founded in Boston in 1829, Perkins School for the Blind was the first school of its kind in the United States. Perkins pioneered education for people who are deafblind when seven-year-old Laura Bridgman became the first deafblind person to learn language, in 1837. Fifty years later, alumna Annie Sullivan used the same methods to teach Helen Keller, the deafblind Perkins student who became one of the foremost humanitarians of the twentieth century. The school also pioneered the first kindergarten for the blind and the first training programs for teachers of the blind and deafblind. Perkins School for the Blind pays tribute to this groundbreaking institution and its legacy of establishing education programs that bring hope and dignity to more than forty thousand people with blindness and deafblindness worldwide.

Blind Copy Feb 21 2022 A ten-year-old running for her life climbed into the back of Mr. Exit's shop. She had one request, help me save my mothers. Operating solely on the intel of the kid, he stages a rescue operation. Mr. Exit stopped worrying about all the things leaving his life and began to concentrate on three people who entered his world with a bang. He placed a call to the Archangel, Gabriel Neary, who liked Mr. Exit a great deal. He was a smart man. A learned man. He wasn't a thug with a rifle who liked to shoot stuff or a paid sociopath who liked to kill more than just bunny rabbits. Gabriel Neary appreciated a man of intelligence. "There are five archangels in the Bible," Gabriel Neary said. "The most well-known ones are Gabriel and Michael. There are also Uriel, Joel, and of course Raphael. Sometimes we get to choose. Other times we are chosen. The question for you, Mr. Exit, did you choose, or were you chosen?" At this point, he wasn't certain.

The Blind Spots of Public Bureaucracy and the Politics of Non-Coordination Oct 05 2020 How to better coordinate policies and public services across public sector organizations has been a major topic of public administration research for decades. However, few attempts have been made to connect these concerns with the growing body of research on biases and blind spots in decision-making. This book attempts to make that connection. It explores how day-to-day decision-making in public sector organizations is subject to different types of organizational attention biases that may lead to a variety of coordination problems in and between organizations, and sometimes also to major blunders and disasters. The contributions address those biases and their effects for various types of public organizations in different policy sectors and national contexts. In particular, it elaborates on blind spots, or 'not seeing the not seeing', and different forms of bureaucratic politics as theoretical explanations for seemingly irrational organizational behaviour. The book's theoretical tools and empirical insights address conditions for effective coordination and problem-solving by public bureaucracies using an organizational perspective.

The Blind Assassin Aug 15 2021 "Ten days after the war ended, my sister Laura drove a car off a bridge." These words are spoken by Iris Chase Griffen, married at eighteen to a wealthy industrialist but now poor and eighty-two. Iris recalls her far from exemplary life, and the events leading up to her sister's death, gradually revealing the carefully guarded Chase family secrets. Among these is "The Blind Assassin," a novel that earned the dead Laura Chase not only notoriety but also a devoted cult following. Sexually explicit for its time, it was a pulp fantasy improvised by two unnamed lovers who meet secretly in rented rooms and seedy cafés. As this novel-within-a-novel twists and turns through love and jealousy, self-sacrifice and betrayal, so does the real narrative, as both move closer to war and catastrophe. Margaret Atwood's Booker Prize-winning sensation combines elements of gothic drama, romantic suspense, and science fiction fantasy in a spellbinding tale.

They also find a coded message hidden in the murdered lawyer's apartment. Their maverick colleague in the drugs squad, Billy T., reports that a recent rumor in the drug underworld involves drug-dealing lawyers. As the officers investigate, they uncover a massive network of corruption leading to the highest levels of government.
