

migrated release they can be migrated for use with subsequent releases and are self extracting installers all legacy sample data is grouped under a single project ipj file any part and or part only dependent files can be  
[inventor ideas autodesk community](#) Jun 12 2021 web nov 22 2022 hello dear autodesk team it would simplify the plan derivation process significantly if you can also use your own views which you have defined in the part or assembly in the drawing much time could be saved by simply allowing the engineer to select the save as command then select inventor assembly under a drop down list
